Scheiman, Debra Sokol-McKay**

Low Vision Handbook:

The Low Vision Handbook Barbara Brown, 1997 The Basic Bookshelf for Eyecare Professionals is a series that provides fundamental and advanced material with a clinical approach to clinicians and students. A special effort was made to include information needed for the certification exams in ophthalmic and optometric assisting, low vision, surgical assisting, opticianry, and contact lens examiners. The purpose of The Low Vision Handbook is to make each step in the low vision process clear for the assistant who is going to provide the most complete level of services for the client. Two main subjects are focused on in The Low Vision Handbook. First, an introduction to low vision as a medical and optical problem is presented. The second section covers rehabilitation concerns of low vision and blindness, including psychological responses to vision loss and how to understand patients in various stages of acceptance. The Low Vision Handbook is one of several books in our Basic Bookshelf for Eyecare Professionals series. The goal of the Basic Bookshelf is to provide basic and advanced material with a clinical approach to clinicians and students.

Features: In-depth discussion of various low vision problems and low vision aids, including how to use the aids, where to get the aids, and how to train the patients. Patient diagnoses, treatment, and rehabilitation are well described, including the psychological impact of low vision problems. Case histories of actual patients. Carefully chosen art and photos are included to illustrate the effectiveness of low vision aids.

The Low Vision Handbook for Eyecare Professionals Barbara Brown, 2007 Clearly organized and simply presented. The Low Vision Handbook for Eyecare Professionals Second Edition offers an introduction to all aspects of low vision, including a short history of low vision and the basic optics of magnifiers. Updated and revised, this second edition of The Low Vision Handbook for Eyecare Professionals provides practical material on assessing low vision patients, the psychology of visual loss, and ways to alleviate patients' common fears. Additionally, Barbara Brown explores current optical, nonoptical, and electronic devices and their appropriate uses for various patients. Additional features include Case histories to explain some differences among patients at varying levels of vision loss. Key points and study icons that highlight topics of interest for paraprofessionals studying for their certification exams. Addresses and websites for vendors of low vision aids and devices. Contact information for rehabilitation centers and support agencies to benefit visually impaired patients. Multiple references and resources for further study. The Low Vision Handbook for Eyecare Professionals Second Edition is perfect for students of the ophthalmic and optometric sciences, introductory level assistants and other medical office staff, as well as more experienced technicians. The easy-to-read format, user-friendly terminology, and resource information make it an invaluable book for all who assist low vision patients.
