Working Together in Children's Services Damien Fitzgerald, Janet Kay, 2007-12-12 The importance of interagency cooperation within children's services has been highlighted within recent government strategy including the Every Child Matters agenda the development of Children's Centres and the expansion of Extended Schools Following tragic cases such as Victoria Climbié the need for effective multi disciplinary teamwork and interagency co operation across all education and care settings remains as pressing as ever Working Together in Children's Services addresses a range of theoretical perspectives and contexts to stimulate students and practitioners critical thinking about the issues of multi agency working The book provides the reader with a critical framework for understanding both new and future developments and explores key issues like The notion of working together and what it means in practice The benefits and barriers of multi agency work Current policy and requirements for successful interdisciplinary working Essential skills for inter professional teamwork As modules on multi professional working become increasingly common the book will provide core reading for all students of Early Childhood Studies Initial Teacher Education and Foundation Degrees in the Early Years By showing how to develop successful multi agency partnerships it is also highly relevant for teachers and practitioners working across children's services

Postharvest Physiology and Hypobaric Storage of Fresh Produce Stanley P. Burg, 2004-06-28 Hypobaric low pressure storage offers considerable potential as a method to prevent postharvest loss of horticultural and other perishable commodities such as fruit vegetables cut flowers and meat Yet hitherto there has been no comprehensive evaluation and documentation of this method and its scientific basis Written by the world's leading authority on hypobaric storage Postharvest Physiology and Hypobaric Storage of Fresh Produce fills this gap in the existing literature The first part of the book provides a detailed account of the metabolic functions of gases and the mechanisms of postharvest gas exchange heat transfer and water loss in fresh produce The effect of hypobaric conditions on each process is then considered before a critical review of all available information on hypobaric storage This includes horticultural commodity requirements laboratory research and the design of hypobaric warehouses and transportation containers
