Lu Xun And Evolution:

Lu Xun and Evolution James Reeve Pusey, 1998-01-29 This book studies one of the most important figures in modern Chinese intellectual history China's greatest modern writer Lu Xun 1881-1936 His trenchant criticisms of the China of his day still speak directly to what can be called without hyperbole the current crisis in philosophical and political thought in the People's Republic It is also a study of a non-Western intellectual's struggle in a time of crisis to make practical sense of the Darwinian Revolution a revolution not limited to the West Although Lu Xun died more than sixty years ago his work is still alive in China more so than any American writer of the 1920s and 1930s is in the United States He is viewed paradoxically as both an official icon and as a patron saint of dissent This book is therefore about Lu Xun both in his lifetime and in his second lifetime and it looks to his third But it is not just about Lu Xun It is about Lu Xun and evolution As a philosophical critique of Lu Xun's thought it looks to Lu Xun's struggle to make practical sense of evolution a contradiction that forces either or questions on the Chinese and on us all

Lu Xun and Evolution James Reeve Pusey, 1998-01-01 Lu Xun 1881-1936 China's greatest modern writer remains important today both as an official icon and a patron saint of dissent This book deals with Lu Xun's struggle to make sense of the Darwinian Revolution It illuminates not only Lu Xun's thought but also the current crisis in Chinese thought caused by the loss of faith in Marxism

Lu Xun and His Legacy Leo Ou-fan Lee, 1985-01-01 *The Specter of Materialism* Petrus Liu, 2022-12-09 In recent years queer theory appears to have made a materialist turn away from questions of representation and performativity to those of dispossession precarity and the differential distribution of life chances Despite this shift queer theory finds itself constantly reabsorbed into the liberal project of diversity management This theoretical and political weakness Petrus Liu argues stems from an incomplete understanding of capitalism's contemporary transformations of which China has been at the center In *The Specter of Materialism* Liu challenges key premises of classic queer theory and Marxism turning to an analysis of the Beijing Consensus global capitalism's latest mutation to develop a new theory of the political economy of sexuality Liu explores how relations of gender and sexuality get reconfigured to meet the needs of capital in new regimes of accumulation and dispossession demonstrating that evolving US-Asian economic relations shape the emergence of new queer identities and academic theories In so doing he offers a new history of collective struggles that provides a transnational framework for understanding the nexus between queerness and material life

Politics of Art Zhiguang Yin, 2015-02-04 In *Politics of Art* Zhiguang Yin investigates members of the Creation Society and their social network while in Japan The study contextualises the Chinese left-wing intellectual movements and their political engagements in relation with the early 20th-century international political events and trends in both East Asia and Europe The Creation Society was largely viewed as a subject of literary studies This research however evaluates these intellectuals in the context of Chinese revolution and elaborates their theoretical contribution to the Chinese Communist Party's practice of theoretical struggle as a main driving force of ideological construction As this study tries to

demonstrate theoretical struggle drives the ideological politics forward while maintaining its political vigour
