From panning for gold to losing an arm during a Civil War battle to campaigning hard for elections Lucius learned early that it takes courage and persistence to succeed Lucius's life brimmed with adventure As a young man he headed west across sprawling prairies and high mountains to seek his fortune in California's gold mines Finding little gold Lucius tried his hand as a beef supplier and made his money there When volunteers were needed to fight in the Civil War Lucius proclaimed no one can take a clatter at that more easily than I can Lucius grieved over the loss of his men of the Iron Brigade in battles like that of Brawner's Farm and his own left arm was shattered at Gettysburg With the glow of a returning hero Lucius went on to win three terms as governor of Wisconsin and then to secure diplomatic posts in Europe Yet even as Lucius advanced his own career he like his contemporary Cordelia Harvey never forgot the importance of serving others As governor and first lady Lucius and his wife Frances swiftly came to the aid of Peshtigo Fire victims And as commander in chief of the Grand Army of the Republic he made helping veterans top priority Sidebars on the California Gold Rush military rank Free States and Slave States the Iron Brigade and the Gettysburg Address complement this history rich biography **Fernando De Lucia** Michael Edward Henstock, 1990 Biografie van de Italiaanse operazanger **The Sunny Caribbees** Robert Bayley, 1967 Toward a Small Data Archaeology Lisa Overholtzer, 2025-11-17 Toward a Small Data Archaeology presents an interpretive and methodological framework a small data archaeology elucidated through a case study at Xaltocan Mexico Aligned closely with Indigenous feminist principles by engaging directly with descendant communities that resist abstract large scale syntheses and instead emphasize deep localized understanding of ancestral lives intertwined with their landscapes this framework repositions archaeological inquiry by focusing on individual household contexts Drawing on diverse lines of evidence from molecular archaeology and geochemistry to Bayesian statistics Lisa Overholtzer uncovers the detailed social identities economic practices and ritual behaviors that defined everyday life in Xaltocan Xaltocan served as the Otom city state capital before being conquered by the Tepanecs subsequently incorporated into the Aztec Empire and finally integrated into the vast Spanish colonial sphere In reconstructing long term household histories that bridge the pre Hispanic and early Colonial periods this book resists narratives that define Indigenous peoples solely through the lens of conquest and subordination Instead it presents richly detailed reconstructions of familial relationships and social networks achieved through the rigorous analysis of artifacts ecofacts human remains and ancient DNA This meticulous and community collaborative approach not only maximizes insights available from a limited archaeological record but also honors the ethical imperative to work with descendant communities Toward a Small Data Archaeology offers an innovative reexamination of the past by privileging the intricate household level narratives of Indigenous communities over the homogenizing tendencies of broad scale big data approaches By peopling the past Overholtzer redefines methodological boundaries within archaeology produces reconstructions and narratives that are more in line with Indigenous philosophies and offers a compelling vision for a future in which historical narratives are reconstructed through a lens that is both deeply scientific and inherently humane
