gestures that conjure the force of Manhattan and its powerful electric skyline Featuring a facsimile reproduction of Fontana's 1947 Manifesto Tecnico as well as essays by Barbero and other leading scholars of the artist's oeuvre including Enrico Crispolti author of the Fontana catalogue raisonné Paolo Campiglio and Barbara Ferriani Lucio Fontana Enrico Crispolti, Lucio Fontana, 2005 **Lucio Fontana** Lucio Fontana, 2019 **Immaterial: Lucio Fontana Ceramics** Paolo Campiglio, 2020-09-15 On Lucio Fontana's little known engagement with ceramics Given the sculptural properties of his famous slashed canvases it is perhaps little wonder that Lucio Fontana 1899-1968 began his career as a sculptor Less well known is his work as a ceramicist which commenced in the mid 1930s and produced an exploration of materiality that profoundly informed his practice as an artist This interest was developed parallel to his painting and was in many ways indistinguishable from his work as a sculptor As Fontana continued to create ceramics he became increasingly obsessed with the concept of matter as it related to the mass and volume of the sculpted object His exploration of the physicality and weight of a work of art prefigured his later desire to diminish the materiality of his art As Fontana scholar Paolo Campiglio writes here he sought to discover a form that could exceed its own materiality He sought to test the possibilities of space He sought to create an object with absolute plasticity And he sought to discover an ideal abstract form opposed to the accepted geometrical forms **Lucio Fontana: Fontana's creative path in twentieth century art** Enrico Crispolti, Lucio Fontana, 2006 A historical and critical profile of the complete creative corpus of the artist Covers over four decades of Fontana's creative activity presented in chronological order A rigorous examination of over 4000 works carried out in collaboration with the Lucio Fontana Foundation making this a definitive and essential publication for scholars collectors museums and art dealers Lucio Fontana: Sculpture Lucio Fontana, Luca Massimo Barbero, 2023-02-14 Lucio Fontana Sculpture charts the uncategorizable artist's exploration of sculpture from the 1920s until his death in 1968 In the first scholarly monograph in English devoted to Fontana's sculptural production bodies of work from different periods are considered together highlighting continuity and evolution in his oeuvre Edited by Luca Massimo Barbero in collaboration with the Fondazione Lucio Fontana this richly illustrated volume allows readers to discover Fontana's rarely seen sculptural works exhibited at Hauser Wirth New York 69th Street from November 2022 until February 2023 Lucio Fontana Anthony White, 2011 In 1961 a solo exhibition by Argentine Italian artist Lucio Fontana met with a scathing critical response from New York art critics Fontana 1899-1968 well known in Europe for his series of slashed monochrome paintings offered New York ten canvases slashed and punctured thickly painted in luridly brilliant hues and embellished with chunks of colored glass One critic described the work as halfway between constructivism and costume jewelry unwittingly putting his finger on the contradiction at the heart of these paintings and much of Fontana's work the cut canvases suggest avant garde iconoclasm but the glittery ornamentation evokes outmoded forms of kitsch In Lucio Fontana Anthony White examines a selection of the artist's work from the 1930s to the 1960s arguing that Fontana attacked the idealism of twentieth century art

by marrying modernist aesthetics to industrialized mass culture and attacked modernism's purity in a way that anticipated both pop art and postmodernism. Fontana painted expressionist and abstract sculptures in the pinks and golds of mass-produced knickknacks, saturated architectural installations with fluorescent paint and ultraviolet light, and encrusted candy-colored monochrome canvases with glitter. In doing so, White argues, he challenged Clement Greenberg's dictum that avant-garde and kitsch are diametrically opposed. Relating Fontana's art to the political and social context in which he worked, White shows how Fontana used the materials and techniques of mass culture to comment on the fate of the avant-garde under Italian fascism and the postwar economic miracle. At a time when Fontana's work is commanding record prices, this new interpretation of the work assures that it has unprecedented critical relevance.

Lucio Fontana: the Origin of the World, 2024-02-12 Divine feminine force supplants demiurgic masculine energy in this new approach to Fontana's work. Through a selection of drawings and sculptures, this publication offers a new interpretation of the work of Argentine-Italian artist Lucio Fontana (1899-1968), moving away from its masculine connotations to examine the feminine aspects of the cuts, holes, and graphic representations created with primary, furtive gestures.

Lucio Fontana: Environments Lucio Fontana, 2018-05-22 Lucio Fontana (1899-1968) radically transformed our conception of painting, sculpture, and space by transcending the two-dimensionality of the canvas, foreshadowing many movements of the 1960s and 70s, such as Arte Povera, conceptualism, and land art. As the founder of Spatialism, an artistic movement that emerged in Italy in the late 40s, Fontana did away with the distinction between painting and sculpture with his famous slashes and holes in the canvas. *Environments* is focused on Fontana's pioneering work in installation art, with a selection of his seminal *Ambienti spaziali* seen together for the first time. The *Ambienti spaziali* rooms and corridors that the artist began to conceive and design in the late 1940s were almost always destroyed once the exhibition was over; they are Fontana's most experimental yet least-known works due to their ephemeral nature.

Fontana Lucio Fontana, Galleri Tornvall, 1990 **Lucio Fontana, 1899-1968, a Retrospective** Lucio Fontana, Solomon R. Guggenheim Museum, 1977 Lucio Fontana Lucio Fontana, Walker Art Center, 1966 **Lucio Fontana** Renato Miracco, Lucio Fontana, 2006 The exhibition is designed to provide the public with a better understanding and appreciation of an artist who, amongst the Masters and avant-garde movements of the twentieth century, was at the forefront of research and formal experimentation. His relentless investigation began in the thirties and continued for the rest of his life; it focused on finding dimensions, spaces, and new shapes. Yet despite all this, it took a long time for Lucio Fontana's work to capture the attention of the discerning American public, initially enthralled by the European modernism of the French school. This selection of works illustrates the progress and evolution of Fontana's research on signs and matter. The exhibition combines his aperture towards the modern movement while he was in South America with his works inspired by the atmosphere in Milan, based so to speak on metaphysical considerations and the practical application of his studies and interiors, or on the everyday aesthetics represented by the world of fashion.
