status in many countries throughout the world although few countries have actually incorporated this subject in their formal  
school curricula Where Media Education is taught today it is principally carried out using a relaxed pluralistic and a cross or  
multidisciplinary approach This book sets out to explore this new approach to the subject via chapters that are representative  
of ongoing work by leading Media Education researchers in nine different countries and from all five continents Media  
Education is continually evolving and the individual chapters indicate that the passion for the subject is global while the  
actual translations of practices and policies are very much local The book expands the debate about Media Education beyond
