*God Can't* Thomas Jay Oord, 2019-01-05 Hurting people ask heart felt questions about God and suffering Some answers they receive appeal to mystery God's ways are not our ways Some answers say God allows evil for a greater purpose Some say evil is God's punishment The usual answers fail They don't support the truth that God loves everyone all the time God Can't gives a believable answer to why a good and powerful God doesn't prevent evil Author Thomas Jay Oord says God's love is inherently uncontrolling God loves everyone and everything so God can't control anyone or anything This means God cannot prevent evil singlehandedly God can't stop evildoers whether human animal organism or inanimate objects and forces In God Can't Oord gives a plausible reason why some are healed but many others are not God always works to heal everyone but sometimes our bodies organisms or other creatures do not cooperate with God's healing work Or the conditions of creation are not right for the healing God wants to do Some people think God causes or allows suffering to teach us lessons or build our character God Can't disagrees Oord says God squeezes good from the evil God didn't want in the first place God uses pain and suffering without willing or even allowing it Most people think God can overcome evil singlehandedly In God Can't Oord says God needs cooperation for love to reign now and later This leads to a better view of the afterlife called relentless love It rejects traditional ideas of heaven hell and annihilation Relentless love holds to the possibility all creatures and all creation will respond to God's love God Can't is written in understandable language As a world renown theologian Thomas Jay Oord brings credibility to the book's radical ideas He explains these ideas through true stories illustrations and scripture God Can't is for those who want answers to tragedy abuse and other evils that make sense What They're Saying If conventional notions of God make less and less sense to you you'll find Thomas Jay Oord's new book a breath of fresh air Simply put God Can't presents an understanding of God that thoughtful ethical people can believe in Brian D McLaren author of The Great Spiritual Migration I did not want this book to end I wish Dr Oord had written it 100 years ago or 1000 years ago To find your understanding of life and your love for God renewed read this book Dr Karen Strand Winslow Ph.D Biblical and Jewish Studies Professor of Bible Azusa Pacific University As a clinical psychologist working with people in trauma I owe Thomas Jay Oord an enormous debt of gratitude for recasting the so called problem of evil in terms that are conceptually satisfying theologically consistent and pastorally liberating Dr Roger Bretherton Principal Lecturer at the University of Lincoln UK Chair of the British Association of Christians in Psychology Victims of trauma sometimes hear theological responses that imply their suffering is somehow God's will A more careful theological reflection on the nature of the power of a God who is love can help Oord gives us a clear and compelling alternative in this profoundly insightful and admirably concrete and accessible book Dr Anna Case Winters Professor of Theology at McCormick Theological Seminary I know of no book that speaks to suffering with the depth of theological sophistication and psychological sensitivity as God Can't This book is a rare combination of depth and accessibility truly written for the wounded I recommend it to my students parishioners

and therapy clients Dr Brad D Strawn Professor of the Integration of Psychology and Theology Fuller Theological Seminary

**The Moral Psychology of Love** Arina Pismenny, Berit Brogaard, 2022-03-28 Under what circumstances can love generate moral reasons for action Are there morally appropriate ways to love Can an occurrence of love or a failure to love constitute a moral failure Is it better to love morally good people This volume explores the moral dimensions of love through the lenses of political philosophy psychology and neuroscience It attempts to discern how various social norms affect our experience and understanding of love how love relates to other affective states such as emotions and desires and how love influences and is influenced by reason What love is affects what love ought to be Conversely our ideas of what love ought to be partly determined by our conception of what love is

**Kant's Philosophy and the Momentum of Modernity** Robert J. Roecklein, 2019-02-08 This book is both a careful study of Immanuel Kant s work and the context of that work in the movement known as early modern philosophy The chief interest of the author concerns the philosophy of perception that is manifest in Kant s doctrines of the transcendental aesthetic and the concept of phenomena Philosophy bears a crucial relationship to the public in terms of the evidence that it identifies as original and binding In the early modern period philosophy repudiated its dependence on ordinary perception and on language as ordinarily used in the setting forth of its own authority This historiographical fact is presently of immense interest as public discourse finds itself rudderless and without agreed upon common facts for deliberation to settle on It was not the view of

the ancient Greeks that philosophy could so emancipate itself from the perception of common facts as the original evidence for higher investigations The Early Modern era beginning with Bacon but now more furiously in the work of Kant has anchored a general indictment of ordinary perception in a remnant of natural philosophy Human beings in Kant's philosophy are not capable of knowing what objects external objects are in themselves We may only know what are called appearances and Kant refers to these appearances as phenomena Yet this claim is complicated by the a priori knowledge which Kant claims to possess as regards these phenomena that they must all be eternal substances The book freely moves back and forth between Greek antiquity and the Early Modern period to illustrate the full nature of the rupture on this ground of the metaphysics of fact determination For Aristotle the founder of the theory of substance substances are just the perishable bodies commonly perceived Kant's phenomena which claims to embody what appears to the generality of the human race cannot be that for the human race does not perceive eternal objects Illustrated Catalogue of Stereopticons, Sciopticons, Dissolving View Apparatus, Microscopes, Solar Microscope and Stereopticon Combination McIntosh Battery & Optical Co,1895

**Marking the Mark of the Mental** Alberto Voltolini,2025-10-26 This book explores new perspectives on venerable problems about being mental that have always attracted philosophers attention For human beings being mental is one of the most fascinating research subjects since having a mind is the feature that makes our life unique Yet what does mentality really consist in Is there a realm of the mental that can be singled out from other domains and in what relation does being

mental stand with other basic features of the world notably being physical or having a body By linking mentality with intentionality phenomenal consciousness and other interesting features this book provides a fresh perspective on philosophy of mind    **The Many Facets of Love** Thomas Jay Oord,2007 Poets theologians romantics scientists and revolutionaries alike have explored the many facets of love Judging by the wide use of the word oelove and the high praise it typically receives we might think that philosophers have thoroughly analyzed love But this is not the case This book takes a step toward rectifying the neglect of a philosophical analysis of love It brings together fifteen philosophical perspectives that explore some of love TM s most important facets Most of the essays have theistic or religious concerns in mind    **Religious Reconstruction** Minot Judson Savage,1888    **Kindergarten Magazine and Pedagogical Digest** Bertha Johnston,E.
