## Loving This Man:

**To Really Love a Man** Barry Vissell,Joyce Vissell,2018-01-15 Read this book if you want to have a more loving intimate understanding and vulnerable relationship with the special person in your life John Gray PhD author of Men are from Mars Women are from Venus How does a man really need to be loved How can his partner help to bring out his sensitivity his emotions his strength his fire and at the same time allow him to feel respected secure and acknowledged We feel that women and men are essentially similar souls in different sexed bodies Both sexes want the same happiness need the same love crave the same peace and feel the same emotions In all our previous books we have emphasized the similarity rather than the difference between the sexes While this is the highest truth there is another truth no less important Most men and women approach life and relationship in different ways and react to situations differently Notice we said most because nothing is all or none However the difference in male and female hormones the findings of brain chemistry research added to the difference in how women and men are raised help create different emotional climates and even alter ways of thinking On the deepest level women and men are alike In personality there is often a clear contrast On the level of soul there is sameness In thoughts and feelings men and women can be strikingly different We write these books not to point out the differences between the sexes There are enough books that do that We write these books to give tools to the readers to more deeply honor their partners With honoring there can be joining Respect for differences breaks down the age old wall between women and men Before there can be union there must be love Before there can be love there must be understanding and respect Before there can be understanding and respect there must be listening real listening both inner and outer
