## **Missing Person:**

**Missing People** Phil Coleman, 2017-09-12 MISSING PEOPLE Gone Without A Trace An FBI study showed in 2014 there were 83 957 people missing in the United States An average of 750 000 missing persons cases are reported each year with around 2 000 people being reported missing daily When a missing person report is filed the longer the case goes on without the person re appearing the more likely the missing person in question is dead from either homicide or natural causes The majority of missing people are white male adults missing children are rightfully more covered by the media as studies show that the first three hours after a child is missing is when they are most likely to be murdered if killing the child is the intent of the abductor With increased technology improvements in DNA evidence gathering and better law enforcement communication and cooperation solving missing persons cases should have gotten easier and been more successful over time However solving these cases is still difficult and many are never found This is the story of some of those cases affecting victims who still remain unfound Where did these people go What fate befell them And will they ever be found

**Missing People** Seth Balfour, 2016-04-18 The Chilling True Stories Of Strange And Unusual Disappearances Unexplained Missing People And Missing Persons Cases Most of us just skip over the info about missing person cases on the news because our reality doesn't involve losing anyone we like or love But for those people whose day starts and ends with a prayer of safe homecoming the reality is cruel sad and dark Not that your reality will be affected if you listen to the missing persons updates but in an era when no child is left behind it's shameful to leave behind someone who somebody cares about Most missing people cases usually end up as murders A large number of them are just people who are trying to escape their life and forge a new identity But the most interesting cases are those with few clues and evidence to never be completely solved the cases remain as mysteries forever One thing's for sure even though they say that the truth always wins missing people cases can prove that with enough planning money and power you can make anybody disappear and get away with it

Mills,2016-10-18 We often see flyers of missing people many of them are children who perhaps enjoyed too much of their escapade that they were separated from their parents Others were probably adults suffering from a mental condition that rendered them incapable of returning home Other missing people cases however are far more intriguing and creepy For example would you imagine a group of passengers abandoning a ship even though it was still capable of operating If pirates killed them then why would they bother bringing the bodies Another case was about three friends who went missing after talking to a man with blond hair They boarded a boat according to some witnesses but what transpired in the boat is still a mystery Other cases such as a lost plane a missing woman with bipolar disorder and a police cover up on the disappearance of a teenage boy can also be found in this book So if you want to share creepy real life tales to friends during a bonfire session then get ready for some disturbingly weird stories Amazon com **Law, Empire, and the Sultan** Samy A.
