**The Papers of Clarence Mitchell Jr., Volume V** Clarence Mitchell Jr.,2022-08-02 Volume V of The Papers of Clarence Mitchell Jr records the successful effort to pass the 1957 Civil Rights Act the first federal civil rights legislation since 1875 Prior to the US Supreme Court s landmark 1954 decision in Brown v Board of Education the NAACP had faced an impenetrable wall of opposition from southerners in Congress Basing their assertions on the court s 1896 separate but equal

decision in Plessy v Ferguson legislators from the South maintained that their Jim Crow system was nondiscriminatory and thus constitutional In their view further civil rights laws were unnecessary In ruling that legally mandated segregation of public schools was unconstitutional the Brown decision demolished the southerners argument Mitchell then launched the decisive stage of the struggle to pass modern civil rights laws The passage of the Civil Rights Act of 1957 was the first comprehensive lobbying campaign by an organization dedicated to that purpose since Reconstruction Coming on the heels of the Brown decision the 1957 law was a turning point in the struggle to accord Black citizens full equality under the Constitution The act s passage however was nearly derailed in the Senate by southern opposition and Senator Strom Thurmond s record setting filibuster which lasted more than twenty four hours Congress later weakened several provisions of the act but crucially it broke a psychological barrier to the legislative enactment of such measures The Papers of Clarence Mitchell Jr is a detailed record of the NAACP leader s success in bringing the legislative branch together with the judicial and executive branches to provide civil rights protections during the twentieth century **Boomer Buildings** Mitchell/Giurgola Architects,2005 This book presents six case study buildings each more than a generation old that were on the brink of oblivion In each case Mitchell Giurgola Architects worked closely with the client to determine how the project could be salvaged by incorporating updated program elements to serve a new generation of users All six case studies present in detail how each project is analysed from its energy use and curtain wall performance to its mechanical electrical and plumbing systems and structural stability The results are born again buildings created for a fraction of the cost and consuming far fewer materials than a new facility built from scratch Mitchell Giurgola documents a new more sustainable approach to design and construction that builds on the past and makes the old better than new **Joint Volumes of Papers Presented to the Legislative Council and Legislative Assembly** New South Wales.
