The Mixtecs of Oaxaca Ronald Spores,Andrew K. Balkansky,2013-08-15 The Mixtec peoples were among the major original developers of Mesoamerican civilization Centuries before the Spanish Conquest they formed literate urban states and maintained a uniquely innovative technology and a flourishing economy Today thousands of Mixtecs still live in Oaxaca in present day southern Mexico and thousands more have migrated to locations throughout Mexico the United States and Canada In this comprehensive survey Ronald Spores and Andrew K Balkansky both preeminent scholars of Mixtec civilization synthesize a wealth of archaeological historical and ethnographic data to trace the emergence and evolution of Mixtec civilization from the time of earliest human occupation to the present The Mixtec region has been the focus of much recent archaeological and ethnohistorical activity In this volume Spores and Balkansky incorporate the latest available research to show that the Mixtecs along with their neighbors the Valley and Sierra Zapotec constitute one of the world s most impressive civilizations antecedent to and equivalent to those of the better known Maya and Aztec Employing what they refer to as a convergent methodology the authors combine techniques and results of archaeology ethnohistory linguistics biological anthropology ethnology and participant observation to offer abundant new insights on the Mixtecs multiple transformations over three millennia

Codex Sierra Kevin Terraciano,2021-03-25 One of the earliest texts written in a Native American language the Codex Sierra is a sixteenth century book of accounts from Santa Catalina Texupan a community in the Mixteca region of the modern state of Oaxaca Kevin Terraciano s transcription and translation the first in more than a half century combine with his deeply informed analysis to make this the most accurate complete and comprehensive English language edition of this rare manuscript The sixty two page manuscript organized in parallel columns of Nahuatl alphabetic writing and hand painted images documents the expenditures and income of Texupan from 1550 to 1564 With the alphabetic column as a Rosetta stone for deciphering the phonetic glyphs a picture emerges of indigenous pueblos taking part in the burgeoning Mexican silk industry only to be buffeted by the opening of trade with China and the devastations of the great epidemics of the late 1500s Terraciano uses a wide range of archival sources from the period to demonstrate how the community innovated and adapted to the challenges of the time and how they were ultimately undermined by the actions and policies of colonial officials The first known record of an indigenous population s integration into the transatlantic economy and of the impact of the transpacific trade on a lucrative industry in the region the Codex Sierra provides a unique window on the world of the Mixteca less than a generation after the conquest a view rendered all the more precise clear and coherent by this new translation and commentary
