Analog Circuit Design

Michiel Steyaert, Arthur H.M. van Roermund, Johan Huijsing, 2006-03-14 Analog Circuit Design contains the contribution of 18 tutorials of the 14th workshop on Advances in Analog Circuit Design. Each part discusses a specific topic on new and valuable design ideas in the area of analog circuit design. Each part is presented by six experts in that field and state-of-the-art information is shared and overviewed. This book is number 14 in this successful series of Analog Circuit Design, providing valuable information and excellent overviews of analog circuit design CAD and RF systems. Analog Circuit Design is an essential reference source for analog circuit designers and researchers wishing to keep abreast with the latest development in the field. The tutorial coverage also makes it suitable for use in an advanced design course. **Electronic Design**, 2002

Beginning with Volume 13 the printing and dissemination phases of the activity were transferred to University Microfilms Xerox of Ann Arbor Michigan with the thought that such an arrangement would be more beneficial to the academic and general scientific and technical community. After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volume were handled by an international publishing house to assure improved service and broader dissemination. Hence starting with Volume 18 Masters Theses in the Pure and Applied Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York and in the same year the coverage was broadened to include Canadian universities. All back issues can also be ordered from Plenum. We have reported in Volume 26 (thesis year 1981) a total of 11 048 theses titles from 24 Canadian and 218 United States universities. We are sure that this broader base for these titles reported will greatly enhance the value of this important annual reference work. While Volume 26 reports theses submitted in 1981 on occasion certain universities do report theses submitted in previous years but not reported at the time. *Index to IEEE Publications* Institute of Electrical and Electronics Engineers, 1994 *Digest of Papers*, 1983 **General Catalog -- University of California, Santa Cruz** University of California, Santa Cruz, 1993
