Operational Conflict Analysis:

Operational Conflict Analysis Norman A. Bailey, Stuart M. Feder, 1973 The EU's Approach to Conflict Analysis in Integrated Conflict Interventions Kieran Doyle, Sean Mc Gearty, 2025-02-26 This book aims to critically examine the European Union's peacebuilding approach focusing on integrated conflict analysis suggesting a new model for conflict analysis within the EU Common Security and Defence Policy. It explores recent interventions while also addressing the need for improved conflict sensitivity. It argues that greater self-reflexivity and deeper reflection on motivations for intervention plays a critical role within multilateral efforts to address implementation gaps, encourage greater analytical capacity, suggest categories of partnership interaction with other actors and give centrality to the EU's integrated approach, reorienting away from the growing emphasis on securitisation. It is aimed at policy makers and practitioners asking questions of contemporary analysis frameworks which validate causal pathways and currently provide the basis of the international peace architecture.

Determinants of Success in UN Peacekeeping Operations Jacques L. Koko, Essoh J. M. C. Essis, 2012-06-14 This book examines 46 UN peacekeeping operations initiated from 1956 through 2006 to identify the most significant factors that could help to explain the success or lack of success of such operations. It explores the nature of contemporary conflict and the development of conflict resolution. *Operationalizing pathways to sustaining peace in the context of Agenda 2030* Food and Agriculture Organization of the United Nations, 2022-08-01 Violent conflict has increased in recent decades. The number of people worldwide who live in settings where conflict and violence are a daily occurrence is increasing. By 2030, it is estimated that more than half of all people living in poverty will be found in countries affected by high levels of violence. These conflict dynamics have a negative impact on households, food security, agriculture, natural resources, food security and nutrition can be sources of peace or conflict, crisis or recovery, tragedy or healing. Underpinning this is ensuring that the Organization's projects and interventions are conflict sensitive so that all stakeholders understand the dynamics of the diverse contexts in which FAO works. Especially in

fragile and conflict affected contexts we need to make sure that our work avoids contributing to divisions disputes and violent conflict and does no harm All that we do both by ourselves and through partnerships should follow this approach We can also identify where FAO can positively contribute to social cohesion and peace and these efforts must be rooted in robust theories of change FAO is placing increasing emphasis on ensuring that our interventions make a positive contribution to peace an objective shared across the United Nations system and increasingly a requirement of our partners and donors The focus of this how to guide is to elaborate the pathways through which the Organization can optimize deliberate contributions to peace and inform the design adaptation and impact measurement of its interventions In recent years FAO has developed corporate tools guidance and training on conflict sensitivity and context analysis Operationalizing pathways to sustaining peace in the context of Agenda 2030 A how to guide is another crucial document in that series developed through collaboration between the FAO Conflict and Peace Unit and Interpeace in the context of a wider partnership between the two Organizations Following broad consultation across the Organization this document provides operational guidance and inspiration to FAO project and technical staff on how our work can enhance FAO s contributions to peace and how to measure those contributions It is part of an ongoing process which complements FAO s efforts through its Strategic Framework to support the transformation to more efficient inclusive resilient and sustainable agrifood systems for better production better nutrition better environment and better life leaving no one behind
