Les Galloway

Operations Management In Context:

Operations Management in Context Les Galloway, Frank Rowbotham, Masoud Azhashemi, 2012-10-02 Operations Management in Context is a straightforward and accessible text which provides students with a good grounding in the theory and practice of operations management and its role within organisations. The structure is clear and logical leading the newcomer to the subject through the topics in a way to maximise comprehension highlighting key issues and using case studies and examples from business to contextualise learning. Chapters are structured to enable incremental and progressive learning with a logical development of the content. Each chapter is linked and ends with a summary of the key points met in the text to aid revision. Exercises and self assessment questions are included to reinforce learning and maintain variety with answers included at the end of the book. The text is accompanied by a lecturer's supplement *Operations Management* Terry Hill, 2000-01. Concluding with over 20 extended case studies from both the manufacturing and service sectors plus numerous end of chapter discussion questions this should be useful reading for students taking operations management courses.
