Hugh Morrison, 2024-03-05 Protestant missionary children were uniquely empire citizens through their experiences of living

in empire and in religiously formed contexts This book examines their lives through the related lenses of parental institutional and child narratives To do so it draws on histories of childhood and of emotions using a range of sources including oral history It argues that missionary children were doubly shaped by parents concerns and institutional policy responses At the same time children saw their own lives as both ordinary and complicated Literary representations boosted adult narratives Empire provided a complex space in which these children navigated their way between the expectations of two if not three different cultures The focus is on a range of settings and on the early twentieth century Therefore the book offers a complex and comparative picture of missionary children s lives      **Cassini Mission** Marty Gitlin,2019-07-04

Launched on Oct 15 1997 the spacecraft entered orbit around Saturn on June 30 2004 PDT After its four year prime mission Cassini s tour was extended twice Beginning in 2010 Cassini began a seven year mission extension in which it completed many moon flybys on Saturn and Titan In April 2017 operators placed Cassini on an impact course that unfolded over five months of daring dives On Sept 15 2017 the spacecraft made its final approach to the giant planet Saturn But this encounter was like no other This time Cassini dived into the planet s atmosphere sending science data for as long as its small thrusters could keep the spacecraft s antenna pointed at Earth To its very end Cassini was a mission of thrilling exploration      Asians in Diaspora and Diasporas in Asia Sam George,Bulus Galadima,Jeanne Wu,2025-03-31 Asians are everywhere They move for education and economic betterment while others are forcibly displaced Home to nearly two thirds of the world s population it is inevitable that this region sends out and receives a large share of global migrants There are few corners of the world devoid of the presence and influence of this far reaching diaspora This collection of essays from leading scholars and seasoned practitioners explores the journeys of modern Asian diasporas from a Christian perspective Addressing relevant issues contextually the authors cover pertinent topics such as justice amongst migrant workers immigration policies and climate migration while simultaneously reflecting on the biblical perspective of diaspora Timely and practical this book reveals how God moves with Asian people making himself known amongst them and through them      *Kids to Space* Lonnie Jones Schorer,2006 A comprehensive collection of children s questions about traveling to and living in space      *Women and Missions* Lucia P.
