

Mitterrand Era

John Steward Ambler

Mitterrand Era:

The Mitterrand Era Anthony Daley, 2016-07-27 This anthology examines the effects of economic orthodoxy on the French left A decade after the governing left relinquished plans to transform society French social actors have indeed changed They have adapted to economic orthodoxy and to a new political mainstream Various essays examine the political impact of economic forces They explore the relationships between left parties and organized labour The book also looks at new forms of political mobilization around gender immigration and environmental issues

The Long Presidency Julius W Friend, 2018-02-07 A balanced yet critical review of Mitterrand's fourteen year presidency Friend has crowned a long career as an expert on French politics with this astute analysis and assessment of a decisive chapter in the history of French Socialism This is contemporary history at its best Richard Kuisel SUNY Stony Brook An intelligent and highly readable account of the Mitterrand years that Friend argues have changed the political landscape of France A very good example of instant history Fritz Stern Foreign Affairs In this informed and balanced treatment of recent French history Julius Friend analyzes the changes successes and failures in the long and checkered record of the former French president Francois Mitterrand Extensive interviews with French politicians and intellectuals complement his original research Mitterrand was in office longer than any other democratic president but Friend asks us to consider the legacy of such a term Elected in 1981 on a platform of radical reorganization of the French economy and society Mitterrand was compelled to change policy within two years Conventional austerity replaced socialist measures and his second term was spotted by scandal and weakened by illness The Mitterrand era saw the end of French hopes to be first among equals in Western Europe instead Mitterrand inaugurated a partnership with unified Germany in the European Union

The French Defence Debate R. Utley, 2000-08-22 The French Defence Debate examines assertions of consensus and continuity in and surrounding France's defence since 1958 with primary reference to the political career of Francois Mitterrand Mitterrand's influence over defence and security before and after his election to the presidency is often underestimated Nonetheless his impact was substantial if ultimately for his lack of concern to preserve consensus and his reluctance to instigate necessary changes in France's defence despite the end of the Cold War and the military deficiencies and limitations of national independence it exposed

Turkish-French Relations Aurélien Denizeau, Ozan Örmeci, 2022-09-02 This book explores both the history and current diplomatic and foreign policy challenges in Turkish French relations By critically analyzing Turkish and French government and archival documents as well as other primary sources it reviews the evolution of Turkish French relations and offers a better understanding of various diplomatic issues foreign policy decisions and geopolitical questions Furthermore it sheds new light on the significance of domestic political demands for foreign policy decisions and the importance of mutual perceptions in shaping the two countries relations The book is divided into three parts the first of which studies the history of Turkish French relations including the Ottoman Empire's trade relations with France France's relations with the modern Republic of

Turkey and relations during the Cold War and its aftermath The second part analyzes various dimensions including diplomatic challenges the two countries foreign policy concepts geopolitical aspects economic and trade relations and their cultural relationship In turn the third part presents case studies on more specific issues related to Franco Turkish relations including Turkey's EU accession process the Armenian and Kurdish issues and French and Turkish perspectives on the MENA region

France since 1870 Charles Sowerwine, 2018-01-25 This thoroughly revised updated and expanded new edition of an established text surveys the cultural social and political history of France from the Franco Prussian War of 1870 and the Paris Commune through to Emmanuel Macron's presidency Incorporating the newest interpretations of past events Sowerwine seamlessly integrates culture gender and race into political and social history This edition features extended coverage of the 2007-8 financial crisis the rise of the political and cultural far right and the issues of colonialism and its contemporary repercussions This is an essential resource for undergraduate and taught postgraduate students of history French studies or European studies taking courses on modern French history or European history This text will also appeal to scholars and readers with an interest in modern French history Richly informative and lucidly presented Sowerwine's France since 1870 offers essential reading for students and researchers Particularly powerful is the new final chapter which draws on historical expertise to explore and explain the literary and political malaise of contemporary France Jessica Wardhaugh University of Warwick UK This third edition is unparalleled in its reach and excellence as a history of modern France from 1870 to the present Sowerwine seamlessly integrates culture gender and race into political and social history His incorporation of the newest interpretations of past events as well as the historical perspective he lends to current events such as terror attacks new laws regarding labor and marriage modern globalization neo liberalism as well as to France's darkening mood make this highly readable book a true masterpiece Elinor Accampo University of Southern California USA Her recent social and economic challenges have cast deep shadows into the story of modern France that Charles Sowerwine tells so clearly Those dark questions about culture politics and society have their full place in this This scholarly but accessible reassessment of French history since 1870 This edition raises new questions about France's story directly and compellingly and remains the key text for readers who are curious about modern France Julian Wright Northumbria University UK Following on the fine precedent set by earlier editions this masterful survey offers students and the public alike a readable and illuminating account of the tortuous and ever intriguing path of French history since 1870 George Sheridan University of Oregon USA

Capital Rules Rawi Abdelal, 2009-09-30 The rise of global financial markets in the last decades of the twentieth century was premised on one fundamental idea that capital ought to flow across country borders with minimal restriction and regulation Freedom for capital movements became the new orthodoxy In an intellectual legal and political history of financial globalization Rawi Abdelal shows that this was not always the case Transactions routinely executed by bankers managers and investors during the 1990s trading foreign stocks and bonds borrowing in

foreign currencies had been illegal in many countries only decades and sometimes just a year or two earlier How and why did the world shift from an orthodoxy of free capital movements in 1914 to an orthodoxy of capital controls in 1944 and then back again by 1994 How have such standards of appropriate behavior been codified and transmitted internationally Contrary to conventional accounts Abdelal argues that neither the U S Treasury nor Wall Street bankers have preferred or promoted multilateral liberal rules for global finance Instead European policy makers conceived and promoted the liberal rules that compose the international financial architecture Whereas U S policy makers have tended to embrace unilateral ad hoc globalization French and European policy makers have promoted a rule based managed globalization This contest over the character of globalization continues today

Contemporary France Jill Forbes, Nicholas LAST KNOWN ADDRESS Hewlett, Francois Nectoux, 2014-01-21 In one stimulating source this successful text provides a rigorous analysis of the political economic and social developments in post war France The analysis is supported by specially selected French language texts and exercises This text is suitable for undergraduate students of French especially within a languages social science or business course and for courses in French Studies and European Studies

Founding Republics in France and America John Anthony Rohr, 1995 Recalling Tocqueville s exhortation for the French to look to America for a better understanding of their own government John Rohr returns the favor by revealing how much we can learn about American constitutionalism from a close study of French governance The French and American republics both emerged from the same revolutionary era and share a common commitment to separation of powers rule of law and republicanism Even so the two constitutional traditions are quite different France after all has replaced its constitution at least thirteen times since 1789 while the American constitution has endured essentially intact Yet as Rohr shows French constitutionalism merits our careful attention Focusing upon the founding of the French Fifth Republic and the drafting of its constitution Rohr compares the nations divergent approaches to executive legislative and judicial power independent administrative authority and discretion and the relation of administrative law to statutory law His analysis of France s divided versus our unified executive the two presidents exceptional powers and their influence on the legislative process provides particularly fresh insights into how the two constitutional traditions promote and inhibit the capacity for administrative action Rohr shows that French administrative institutions are much more thoroughly developed than their American counterparts due to recurrent presidential and constitutional crises Without such a strong public administration daily life in France would likely be extremely unstable if not quite chaotic The proper role of the French institutions he suggests is largely determined by their relationship to elected officials whereas their American counterparts are essentially shaped by the constitutional order A model for future comparative work in constitutional law and public administration Rohr s study should help us see that the constitutional path we ve pursued wasn t the only possibility and why we ve chosen that route nevertheless As such it should have great appeal for students teachers and practitioners in U S and French law politics and public administration

Contemporary European History, 2000 **Technopopulism** Christopher J. Bickerton, Carlo Invernizzi Accetti, 2021-03-20 Technocratic appeals to expertise and populist invocations of the people have become mainstays of political competition in established democracies This development is best understood as the emergence of technopopulism a new political logic that is being superimposed on the traditional struggle between left and right Political movements and actors such as Italy's Five Star Movement and France's La République En Marche combine technocratic and populist appeals in a variety of ways as do more established parties that are adapting to the particular set of incentives and constraints implicit in this new unmediated form of politics In the first book length treatment of the phenomenon of technopopulism we combine theoretical and historical approaches offering a systematic definition of the concept of technopopulism while also exploring a number of salient contemporary examples This book provides a detailed account of the emergence of this new political logic as well as a discussion of its troubling consequences for existing democratic regimes It ends by considering some possible remedies that go beyond the simplistic idea that in the right dose populism and technocracy can counter balance one another Western Europe 2019-2020, 2019-10-31 The World Today Series Western Europe is an annually updated presentation of each sovereign country in Western Europe past and present It is organized by individual chapters for each country expertly covering the region's geography people history political system constitution parliament parties political leaders and elections The combination of factual accuracy and up to date detail along with its informed projections make this an outstanding resource for researchers practitioners in international development media professionals government officials potential investors and students Now in its 37th edition the content is thorough yet perfect for a one semester introductory course or general library reference Available in both print and e book formats and priced low to fit student budgets **Francois Mitterrand** David S. Bell, 2005-10-21 An insightful political biography of one of the most influential figures in contemporary French and European politics this work explores the development of Francois Mitterrand's career against the backdrop of post war French politics and society *France Since the Second World War* Tyler Edward Stovall, 2002 Asking how France has managed to preserve and shape her sense of national identity in the intervening years since the war Professor Stovall explores the French postwar recovery and the 30 years of prosperity that followed **ICCLP Annual Report** Tōkyō Daigaku. Hikaku Hōsei Kokusai Sentā, 2006 **The Sphinx in the Tuileries and Other Essays in Modern French History** Robert Aldrich, Martyn Lyons, 1999 **French Socialism in a Global Era** Ben Clift, 2003 This book explores the crisis of social democracy within the context of the European political economy focusing on the French socialist party which has developed a successful electoral strategy and a distinctive ideological profile at just the time the End of History mob predicted social democratic politics had reached the end of the road in Europe **The Americana Annual** Alexander Hopkins McDannald, 1996 An encyclopedia of current events **Conflict and Cohesion in Western European Social Democratic Parties** David Scott Bell, Eric Shaw, 1994 Social democracy remains one of the principal

political forces in West European politics Within a comparative framework this work identifies the main factors determining the nature extent and intensity of internal discord within West European social democratic parties **FBIS Daily Report**,1996 The French Socialist Experiment John Steward Ambler,1985
