Managing Successful Universities:

Managing Successful Universities Shattock, Michael, 2010-09-01 Professor Mark Taylor Dean Warwick Business School University of Warwick **Managing Good Governance In Higher Education** Shattock, Michael, 2006-07-01 Michael Shattock former registrar of Warwick can lay claim to having invented the serious study of university governance in Britain Public How has university governance changed and developed over the last quarter of a century How can people actively engaged in university governance manage the increasingly complex issues that confront them This book addresses university governance as extending throughout an institution from the governing body to senates academic boards and the organs of governance at faculty and departmental levels It considers the legal structure of higher education institutions the impact of developments in corporate governance in the private sector the reforms in modern university governance including in academic governance the practicalities of managing governance drawing on selected case studies and the role of governance in relation to institutional performance Whilst the primary market for the book is the United Kingdom many of the themes addressed are of international applicability The book provides both a practical guide for those actively involved in governing universities lay governors senior managers and academics and a key scholarly text for students of higher education managers in universities and colleges and policy makers *The Balance Sheet* ,1927 Higher Education Management and Policy ,2007 **Universities** ,1893 The Johns Hopkins University Studies in Historical and Political Science ,1898 **Managing Technological Change** Tony Bates,2000 A required read for every university administrator grappling with the complexities of technology and education Bates has combined an impressive depth of experience and practice to produce an authoritative and well reasoned approach Bruce Pennycook vice principal Information Systems and Technology McGill University Digital technologies are revolutionizing the practices of teaching and learning at colleges and universities all around the world This book will be helpful for all those who are planning and managing such organizational and technological change on their campuses Timothy W Luke executive director Institute for Distance and Distributed Learning Virginia Tech Implementing new technology at a college or university requires more than simply buying new computers and establishing a Web site The successful use of technology for teaching and learning also demands major changes in teaching and organizational culture In **Managing Technological Change** Tony Bates a world renowned expert on the use of technology in university teaching reveals how to create the new technologically competitive academic organization He draws from recent research and best practice case studies as well as on his thirty years of experience in using technology for teaching to provide practical strategies for managing change to ensure the successful use of technology Readers will learn how to win faculty support for teaching with technology and get advice on appropriate decision making and reporting structures Other topics covered include reward systems estimating costs of teaching by technology and copyright issues Bates also details the essential procedures for funding new technology based systems managing the technology and

monitoring its ongoing educational effectiveness in anticipation of future changes Throughout the book he maintains a focus on the human factors that must be addressed identifying the risks and penalties of technologically based teaching and showing how to manage those hazards *Globalization and Reform in Higher Education* Heather Eggins, 2003 Annotation

This book presents reflections from leading scholars of higher education on two related international issues that at different levels affect both governments and institutions of higher education issues of globalization and reform Writers drawn from Europe the USA Australia and South Africa portray a global pattern of reform **International Trends in University Governance**

Michael Shattock, 2014-06-05 Governance is becoming increasingly important in universities just as it is in the wider world of commerce and banking Historically universities were run by their academic communities but as mass higher education has taken root as university research has become a critical element in national economies and as the demand for more

accountability both financial and in academic performance has grown pressure has mounted for a modernisation of governance structures One aspect of modernisation particularly important in many European systems and in Japan has been the decision by governments to give institutions greater autonomy more control over their budgets and legal responsibility for the employment of their staff International trends to introduce greater competition between institutions to encourage

greater institutional differentiation and give greater play to market forces has led to an emphasis on leadership a more systematic involvement of external stakeholders and a more corporate style of governance At the same time this has often led to a sense of loss of collegiality a redistribution of authority and a growing gap between the centre and the periphery within

universities This book analyses governance change in nine major higher education systems Australia Finland France Germany Italy Japan Norway the UK and the USA each account being the result of independent research by a leading authority in the field and describes how a convergence of governance structures has been mediated by the historical cultural political and social characteristics of the different systems Michael Shattock is a leading authority on university governance this study offers the most up to date account of governance reform in a range of higher education systems an analysis of the common trends and an assessment of their impact on the idea of a university It will be essential reading for academics
