Manhood in the Making ,1990 **Kentucky Justice, Southern Honor, and American Manhood** James C. Klotter,Richard Reid,2003 That seemingly minor event in the small town of Mount Sterling became national front page news Northerners and southerners alike raised questions regarding Reid s response Would he react as a Christian gentleman a man of the law and let the legal system take its course or would he follow the manly dictates of the code of honor and challenge his assailant Which choice would win out in Kentucky s notoriously violent society *Queer Theory and Psychology* Ella Ben Hagai,Eileen L. Zurbriggen,2022-07-21 This timely volume examines the ways in which queer and trans theory are supported by recent findings from psychological science In it Ella Ben Hagai and Eileen Zurbriggen explore foundational ideas from queer thought and transgender theory including the instability of gender variation in sexualities intersectional theory and trans writers rejection of the born in the wrong body narrative These key ideas are juxtaposed with innovative empirical psychological research on the fluidity of gender the proliferation of sexual identities and transgender affirming medical and psychological care This book explains the history and politics of key ideas shaping the study of the psychology of gender and sexuality today It also describes the ways that the queer and trans revolutions have changed how psychologists understand gender sexuality and transgender identities It will be especially helpful for readers interested in interdisciplinary scholarship *Between Woman, Man and God* Hagith Sivan,2004-08-01 According to the demands of the Decalogue manhood entails the avoidance of stealing killing and coveting not to mention apostasy and violation of the Sabbath and other men s property What then would be the essence of womanhood if different By selecting female characters narratives as interpretative clues for the law this book presents a legal behavioral and representational reading of the Decalogue Beginning with an analysis of the legal contents of each Commandment through allied legal texts which relate to women and to the feminine each chapter continues with an investigation of the ways in which the activities of the female and male protagonists of select narratives elucidate the range of Commandments **Music in the Social and Behavioral Sciences** William Forde Thompson,2014-07-18 This first definitive reference resource to take a broad interdisciplinary approach to the nexus between music and the social and behavioral sciences examines how music affects human beings and their interactions in and with the world The interdisciplinary nature of the work provides a starting place for students to situate the status of music within the social sciences in fields such as anthropology communications psychology linguistics sociology sports political science and economics as well as biology and the health sciences Features Approximately 450 articles arranged in A to Z fashion and richly illustrated with photographs provide the social and behavioral context for examining the importance of music in society Entries are authored and signed by experts in the field and conclude with references and further readings as well as cross references to related entries A Reader s Guide groups related entries by broad topic areas and themes making it easy for readers to quickly identify related entries A Chronology of Music places

A.

Mangan, 2013-09-13 The Great War has been largely ignored by historians of sport However sport was an integral part of cultural conditioning into both physiological and psychological military efficiency in the decades leading up to it It is time to acknowledge that the Great War also had an influence on sport in post war European culture Both are neglected topics Sport Militarism and the Great War deals with four significant aspects of the relationship between sport and war before during and immediately after the 1914-1918 conflict First it explores the creation and consolidation of the cult of martial heroism and chivalric self sacrifice in the pre war era Second it examines the consequences of the mingling of soldiers from various nations on later sport Third it considers the role of the Great War in the transformation of the leisure of the masses Finally it examines the links between war sport and male socialisation The Great War contributed to a redefinition of European masculinity in the post war period The part sport played in this redefinition receives attention Sport Militarism and the Great War is in two parts the Continental Part I and the Anglo Saxon Part II No study has adopted this bilateral approach to date Thus in conception and execution it is original With its originality of content and the approaching centenary of the advent of the Great War in 2014 it is anticipated that the book will capture a wide audience This book was originally published as a special issue of The International Journal of the History of Sport *New Men in Trollope's Novels* Margaret

Markwick, 2007-01-01 *New Men in Trollope's Novels* challenges the popular construction of Victorian men as patriarchal despots and suggests that hands on fatherhood may have been a nineteenth century norm Markwick's immensely knowledgeable original and witty book gives us a Trollope whose independent views on child rearing education courtship marriage parenthood and gay men anticipate the new man of the 1990s by more than a hundred years **The Cultural**

Heritage of Medieval Rituals Eyolf Østrem, 2005 The concepts of genre and ritual are central for the overall occupation with the relationship between the History of the Arts and the History of Christianity in Western Culture The present volume was planned on the basis of the first annual international conferences at the Centre for the Study of the Cultural Heritage of Medieval Rituals University of Copenhagen a collection of 15 essays with a wide range of topics both in terms of chronology and subject matter written The book is a special issue of the journal *TRANSfiguration* *Manhood and "civilization"* Gail L.

Bederman, 1993 **The Relentless War on Masculinity** David Maywald, 2025-11-19 The Relentless War on Masculinity is a cultural rhetorical chemical legal and institutional attack on all males During the last seven decades it has resulted in the United States United Kingdom Canada Australia and New Zealand moving from being societies characterised by equality

during the 1980s to now being highly gynocentric Western countries have tilted against men and boys for decades dismantling fatherhood ignoring male disadvantage and portraying masculinity as a problem to be fixed The result is a crisis falling education outcomes for boys disengaged young men rising mental health struggles plummeting birth rates and fractured relationships between men and women This book shines a light on the causes of the crisis and offers a vision for how to rebuild Combining data driven analysis with heartfelt advocacy David Maywald calls for a new social contract one where boys are supported men are respected and both sexes work together to create a healthier future for us all This book explores How Anglo societies moved from equality to gynocentrism and what that means for our families schools and communities The cultural political and institutional forces that have sidelined men and how to reverse them Why fatherhood faith and purpose remain essential foundations of human flourishing Practical solutions and reforms that can restore balance rebuilding collaboration between men and women There are no winners from The Relentless War on Masculinity but we can rebuild a much healthier society if men and women collaborate for our children Inclusion demands that we listen to and engage with all voices including males White people and Christians As a society will we choose combativeness or collaboration Read on for a provocative hopeful and urgent call to action This book is for everyone who believes that when men and boys thrive society also flourishes Perfect for readers of The Boy Crisis Warren Farrell and John Gray Of Boys and Men Richard Reeves The Toxic War on Masculinity Nancy Pearcey Manhood Steve Biddulph Men on Strike Helen Smith The War Against Boys Christina Hoff Sommers **Adolescence and Emerging Adulthood** Jeffrey Jensen Arnett,2004

Handbook of Family Development and Intervention William C. Nichols, 2000-02-25 Like all complex living systems a family during its life course proceeds through predictable stages of development Yet every family is different its uniqueness defined and continually redefined by an open ended array of structural biological and sociocultural variables And as with all living things a family's continued well being depends upon its ability to adapt to changes arising from both within the family system and without First postulated in the 1940s these basic ideas constitute the conceptual core of modern family development theory From them has blossomed an impressive body of knowledge about family health and illness without which much of the progress occurring in family therapy over the past half century would not have been possible This book does much to promote continued progress in the practical application of family development theory by affording family therapists an unparalleled opportunity to acquaint themselves with the most important trends in family development theory to emerge over the past decade In it you will find contributions from leading theorists researchers and clinicians arranged so as to provide a systematic treatment of the latest thinking on family development seen from both the systemic viewpoint and that of individual members of the system Comprehensive in scope this book explores the patterns processes and dynamics inherent in traditional families as well as in important structural variants such as single parent and gay and lesbian families and families with special needs and problems including divorce physical abuse and disabilities Since progress in the social sciences is as much about formulating viable new ways of seeing as it is about determining quantifiable facts the editors offer equal time to an array of influential and sometimes radically conflicting schools of thought including sociobiology social psychology constructionism multiculturalism postmodernism and feminism Mainstream family therapists will find much in this handbook that they will consider controversial In some cases readers may even be outraged by the views expressed Yet thanks to the high caliber of scholarship intellect and professionalism evidenced throughout none of the ideas advanced in *Handbook of Family Development and Intervention* can be easily dismissed and all have something of value to offer the thoughtful dedicated family therapist *Handbook of Family Development and Intervention* is a valuable professional resource

for all couples and family therapists It is also must reading for graduate students in family psychology family therapy social work and counseling In this magnificent volume the editors make a major contribution that integrates individual and family development concepts and therapeutic applications by bringing together scholarly yet fresh contributions The inclusion of various family forms and of families with special needs makes this volume especially relevant to the treatment of contemporary families as we enter the new millennium This superb Handbook should be mandatory reading and an excellent reference for teachers researchers and therapists at all levels of development Celia J Falicov PhD President 1999 2001 American Family Therapy Academy **Higher Education for Democracy** Steven A. Schapiro, 1999 This collection of essays describes recent experiments at Goddard College Vermont which for 60 years has been developing programs based on the ideals of democracy and the principles of progressive education Higher Education for Democracy draws on that rich history as well as on the legacy of the progressive movement in the 1930s and 1940s which held education for democracy as one of its central tenets while exploring the principles and practices needed to confront the new challenges to democracy that society is now facing Chapters describing experiments in both residential education and short residency distance learning programs include discussion of such topics as teaching as a reciprocal and emancipatory relationship democratic organizational models spirituality and forbidden knowledge narrative and autobiography as a means to empowerment experiential approaches to reading and writing interdisciplinary study in the arts dialogical uses of new technologies and Freirian and feminist approaches to the pedagogy of the oppressed and the oppressor A concluding chapter explains how the concept of education for democracy can once again bring together in new ways the progressive goals of fostering individual development within diverse democratic communities This volume includes contributions by Eduardo Aquino Ken Bergstrom Katherine Jelly Carl Glickman Kathleen Kesson Geraldine and Gus Lyn Piluso Nora Mitchell Steven A Schapiro Richard Schramm and Shelley Vermilya **Journal of Cross-cultural Psychology** , 2002
