As information is distributed and consumed at an increasingly rapid pace one of the most effective or at least pervasive ways to communicate architectural ideas is through renderings. Typically a perspectival image that can be understood without any knowledge of architectural drawing conventions the rendering derives power from its accessibility to a wide audience hence its crucial role in design competitions client presentations press releases and other such public forums. While these architectural visualizations are certainly nothing new advances in software and hardware have enabled renderings to be made faster and more realistic than ever before. This presents both an opportunity and a challenge. On the one hand design concepts can now be tested and conveyed with an unprecedented degree of visual accuracy. Conversely whether through omission extreme dramatization or even intentional fakery architects now have the ability to realistically depict the impossible. Furthermore both clients and public are beginning to expect photorealistic imagery even at the earliest stages of a project when supposed realism can oftentimes belie the fundamentally speculative nature of design. Given the importance of these images in mediating between architects and the people they ultimately serve CLOG will critically assess the state of renderings today.

los países ricos y fuertemente secularizados de Europa y América del Norte los brotes de fundamentalismo en distintas partes del mundo o la apertura religiosa del Extremo Oriente plantean numerosos interrogantes. En los últimos años han surgido diversas iniciativas que es preciso conocer para poder comprender hacia dónde se dirige la arquitectura religiosa contemporánea en su eterna búsqueda sobre lo permanente de su identidad. Estos artículos ilustran la situación en la que nos encontramos.

Biblioteca Vasconcelos Miquel Adrià, Isabel Garcés, 2007 The present edition graphically documents the design, construction and installation of the mega main public library Biblioteca de México José Vasconcelos located in Mexico City. In 2001 a transformation project of the Biblioteca de México proposal had three main actions: the restoration of the La Ciudadela building, the construction of a more modern and larger building and the establishment of an interchange network between the public libraries in México where the new library was to be the central node of a national network. The new library that includes surrounding botanical garden was a project by architect Alberto Kalach and was constructed adjacent to the Buenavista train station in the historical downtown area. A final section follows the artistic and technical process of artist Gabriel Orozco and his work team for the construction of the project Matrix Mvil Mobile Matrix a suspended installation of graphite painting on a salvaged whale skeleton done in 2006 that hangs in the central area of the library.

**Itinerarios Del Proyecto 1 - Ficción Epistemología** Jorge Sarquis, 2021-06-01 Este libro posee tres textos suplementarios que no pretenden cerrarlo en unidad ni agotar su explicación. El principal Itinerarios evoca un viaje por los caminos del proyecto sin marcar significados precisos ni recorridos prefijados de probada eficacia para el éxito. Convoca a crear caminos con nuevos sentidos, los invita al riesgo de ver en el viaje mismo. Así llamaban los griegos a la teoría de viajar, volver y ver otra cosa con otros ojos. Si el proyecto es un camino, un mundo todo es también un medio para llegar a los objetivos a los fines anticipados. La forma espacial significativa anhelada. El otro imagina el libro siguiendo la lógica epistemológica que con la explicación y la comprensión atrapara y agotara el saber de la arquitectura, pero se advierte que finalmente es una ficción de mil puntos de vista. Por último, pensar la Investigación Proyectual como forma de generar conocimientos en los dominios de la arquitectura es la manera de investigar utilizando el proyecto como herramienta privilegiada. Esto es saber hacer o fabricar realidades a partir del mundo real que se interpreta con reglas y materiales de la arquitectura intencionados por el creador del proyecto. Esta epistemología a este saber teórico no podrá verificarse sino en la acción concreta en el hacer en acto. Y al hacerlo comprobará que este saber pretendidamente sólido se lo advierte como una ficción una realidad construida. Se propone como una ficción epistemológica no porque no sea verdad sino porque es una de las muchas verdades posibles de la arquitectura y en su recorrido traicionará siempre y antes que nada a sí misma.
