Language Policy of Education and National Identity in Ethiopia Yirgalem Alemu, 2019-10-17 Academic Paper from the year 2019 in the subject Speech Science Linguistics language English abstract This work has attempted to give an overview of how the language policy of the different regimes in Ethiopia has contributed to the sense of national identity Although language is not the only factor that consolidates or weakens national identity it plays a significant role It is with this in mind that the book is written Different language related policies and documents of the imperial military and EPRDF regimes were closely investigated Sections and statements in the policy pertaining to language use were considered as units of analysis Furthermore empirical and theoretical literature written in areas of language policy and national identity were consulted The author also included his personal experiences as a university instructor and

informal meetings held with people in different walks of life The evidence obtained from the sources mentioned above reflects that the language policy used in Ethiopia is highly polarized ranging from one language to all to no language to all That is the regimes before EPRDF dictate one language to be used as a tool of communication to all Ethiopians On the other hand the EPRDF regime emphasized local language and culture without practically giving any room for national communication Both approaches contribute little to national identity formation This book recommends that Ethiopians need to learn from other multilingual countries about language planning Ethnocentric thinking that assumes one's own language as superior to the other's language should be avoided Politicians also need to abstain from politicizing language identity and using it as a means of mobilizing support This book recommends that bilingual multilingual education contributes a lot to Ethiopian national identity formation *Issues in Language Teacher Education* E. Sadtono, 1991 **Language**

Management in Contact Situations Jiří Nekvapil, Tamah Sherman, 2009 The authors of this volume analyze language contact situations emerging in East and Central Europe Australia and Japan The individual chapters focus on language problems which appear in concrete interactions between speakers of various languages The objective of the book is to demonstrate the capacity of the language management framework on the basis of highly diversified empirical material and thus aid in the solving of similar language problems which arise in different types of intercultural contact The chapters contribute to the forming of a new approach to the processes underlying linguistic diversity covering both its micro and macro aspects **Language and Minority Rights** Stephen May, 2008 In this provocative and ground breaking book Stephen May argues for a non essentialist understanding of language rights while at the same time outlining why language rights particularly for minority groups are defensible and important both academically and politically May argues that the causes of many of the language based conflicts in the world today lie with the nation state and its preoccupation with establishing a common language and culture via mass education The solution he suggests is to rethink nation states in more culturally and linguistically plural ways while avoiding at the same time essentialising the language identity link **Language and Minority Rights** a benchmark volume in the field of language rights and language policy is an outstanding interdisciplinary analysis which draws together debates on language from widely different academic fields including the sociology of language ethnicity and nationalism sociolinguistics social and political theory education history and law illustrating these debates via a wealth of different national contexts and examples It is essential reading for students teachers and researchers in the sociology of language sociolinguistics applied linguistics language policy and planning sociology politics and education Clinical Practice Management for Speech-language Pathologists Becky Sutherland Cornett, 1999 This book thoroughly examines current issues and trends in health care and relates them through specific examples to the clinical practice settings Guidelines advice and examples are included to show clinicians how to be successful in the new and changing health care delivery system *Borneo 2000: Language, management, and tourism* Borneo Research Council
