equality among their core values In 2019 a record number of women entered Congress Yet the glass ceiling is still unshattered women are still punished for wanting to succeed and reproductive rights are hanging by a thread This startling and essential book helps explain why women's freedoms are still so demonized and threatened and urges us to choose a different future **Mandate for Leadership III** Charles L. Heatherly, 1989 **Leading the Way** Lee Edwards, 2013-03-26

The remarkable history of The Heritage Foundation its influential founder and the conservative movement in America *Leading the Way* tells the story of how Ed Feulner has transformed policymaking in Washington and has led The Heritage Foundation into becoming the most influential conservative think tank in the nation Under Ed Feulner and for 36 years Heritage has shaped politics with conservative solutions for such critical issues as entitlements national security missile defense health care welfare reform immigration free trade energy and the role of the family and religion in society Today with over hundreds of thousands of members and an annual budget of more than 80 million Heritage is a permanent Washington institution and the leading exponent of conservative ideas in America and around the world The man who made it happen is Ed Feulner intellectual entrepreneur hands on manager legendary fundraiser presidential adviser bestselling author and world traveler a man who never stops and was described by *The Economist* as one of the most influential conservatives in America *The Conservative Revolution* Lee Edwards, 1999 The triumph of the conservative movement in reshaping American politics is one of the great untold stories of the past fifty years At the end of World War II hardly anyone in public life would admit to being a conservative but as Lee Edwards shows in this magisterial work in the 1950s 1960s and 1970s a small group of committed men and women began to chip away at the liberal colossus and their descendants would scale the ramparts of power in the 1980s and 1990s Not even the fall of Newt Gingrich has changed the indisputable fact that the movement has truly rewritten the rules of American political life and the republic will never be the same Edwards tells the stories of how conservatives built a movement from the ground up by starting magazines by building grass roots organizations and by seizing control of the Republican party from those who espoused collaboration with the liberals and promised only to manage the welfare state more efficiently and not to dismantle it But most of all he tells the story of four men four leaders who put their personal stamp on this movement and helped to turn it into the most important political force in our country today Robert Taft Mr Republican the beacon of conservative principle during the lean Roosevelt and Truman years Barry Goldwater Mr Conservative the flinty Westerner who inspired a new generation Ronald Reagan Mr President the optimist whose core beliefs were sturdy enough to subdue an evil empire Newt Gingrich Mr Speaker the fiery visionary who won a Congress but lost control of it By their example and vision these men brought intellectual and ideological stability to an often fractious conservative movement and held the high ground against the pragmatists who would compromise conservative principles for transitory political advantage And through their efforts and those of their supporters they transformed the American political landscape so thoroughly that a Democratic president would one day proclaim The era of

big government is over Political history in the grand style The Conservative Revolution is the definitive book on a conservative movement that not only has left its mark on our century but is poised to shape the century about to dawn
