Missing Link Carl Aigner, 2000 Photography more than any other medium has altered the way we see ourselves and changed our perception of art Pictures of people have become part and parcel of our daily life influencing us through advertising and media At the same time the status of the human image in art has been enhanced even though photography has called into question traditional views of art Photography is as it were the missing link between man the image of man and art **Lessons in Transonics** Glen C. Cutlip, 2020-10-11 This Book as well as all other books and manuscripts published or yet unpublished written by the author began after a dream experience in which I was encouraged to write At that time it didn't seem possible that I could do such a thing However after other inner and outer experiences having taken place the process of writing began Although at first I wasn't sure of what I would be writing about for the writings were somehow inspired One dream experience of which one is not likely to forget is the one where a being of an higher inner realm whispered in my ear saying you are chosen But what for I wasn't sure at that time Another similar dream was one in which I was given the WORD to bring back Again at that time I wasn't sure what that meant However after several manuscripts were written and reread by me things began to fit into place That is the dream experiences were becoming a reality Although the writings must speak for themselves I feel now that I was chosen to present the WORD the WORD of the Transonic Consciousness which is the WORD embracing the realm of the end and the beginning of a cycle of time The Transonic WORD then is the WORD that takes in the harvesting of a previous cycle of time and the WORD for the beginning of a new cycle of time Therefore the WORD is the everlasting WORD the everlasting gospel as it were Inasmuch as the WORD is the everlasting WORD it is backed by an infinity of beings within the inner and outer realms of being **The Man who Found the Missing Link** Pat Shipman, 2002 Born eighteen months after the first Neanderthal skeleton was found and a year before Charles Darwin
