Gailyn Van Rheenen, 2014-07-22 In a rapidly changing world the central missionary vision of the church must be constantly renewed lest its foundations become lost in the confusion of change or its practices trapped in missionary models of the past. In this second edition of Missions long time missionary Gailyn Van Rheenen revises and updates his classic text on Christian missions laying sound theological and strategic foundations for the missionary of today and tomorrow. Van Rheenen helps renew the missionary vision by discussing areas such as The history of Christian mission and how it affects where we are today. Spiritual formation for God's mission. The missionary cycle. Cross cultural communication. The character and calling of missionaries. Types of missionaries. Church maturation. Selecting mission fields. The role of money in missions. Four levels of involvement in missions. But Missions is more than blackboard theory. Written by a long time missionary it carries the conviction and insights of one who has lived his subject. Accessible to students, practitioners and laypeople alike. Missions provides a primary go to resource for understanding and becoming involved in the dynamic activity of world missions.

Missions Gailyn Van Rheenen, 1996 This introduction to missions looks at the biblical and theological foundations for effective missions. Van Rheenen also outlines practical strategies that will help present and future missionaries involved in taking the gospel to the world

Missionary Strategies in the New World, 1610-1690 Catherine Balleriaux, 2016-02-05 Missionaries who travelled to the New World in the 17th century encountered an array of cults and rituals. Catholics and Calvinists were united in viewing this idolatry as superstitious. Balleriaux presents a study of French, Spanish and English missions to the Americas based on a comparative analysis of the goals expressed in their writings
