with the judicial and executive branches to provide civil rights protections during the twentieth century **Boomer Buildings** Mitchell/Giurgola Architects, 2005 This book presents six case study buildings each more than a generation old that were on the brink of oblivion In each case Mitchell Giurgola Architects worked closely with the client to determine how the project could be salvaged by incorporating updated program elements to serve a new generation of users All six case studies present in detail how each project is analysed from its energy use and curtain wall performance to its mechanical electrical and plumbing systems and structural stability The results are born again buildings created for a fraction of the cost and consuming far fewer materials than a new facility built from scratch Mitchell Giurgola documents a new more sustainable approach to design and construction that builds on the past and makes the old better than new **Joint Volumes of Papers Presented to the Legislative Council and Legislative Assembly** New South Wales. Parliament, 1907 Includes various departmental reports and reports of commissions Cf Gregory Serial publications of foreign governments 1815 1931
