## **Mixedrace Postrace:**

Mixed-Race, Post-Race Suki Ali,2020-05-27 Social scientists claim that we now live in a post race society where race has been replaced by ethnicity Yet racism is endemic to British society and people often think in terms of black and white With a marked rise in the number of children from mixed parentage there is an urgent need to challenge simplistic understandings of race nation and culture and interrogate what it means to grow up in Britain and claim a mixed identity Focusing on mixed race and inter ethnic families this book not only explores current understandings of race but it shows using innovative research techniques with children how we come to read race What influence do photographs and television have on childrens ideas about race How do children use memories and stories to talk about racial differences within their own families How important is the home and domestic culture in achieving a sense of belonging Ali also considers through data gathered from teachers and parents broader issues relating to the effectiveness of anti racist and multicultural teaching in schools and parental concerns over the social mobility and social acceptability of their children Rigorously researched this book is the first to combine childrens accounts on race and identity with contemporary cultural theory Using fascinating case studies it fills a major gap in this area and provides an original approach to writing on race

The Boundaries of Mixedness Erica Chito Childs,2021-05-13 The Boundaries of Mixedness tackles the burgeoning field of critical mixed race studies bringing together research that spans five continents and more than ten countries Research on mixedness is growing yet there is still much debate over what exactly mixed race means and whether it is a useful term Despite a growing focus on and celebration of mixedness globally particularly in the media societies around the world are grappling with how and why crossing socially constructed boundaries of race ethnicity and other markers of difference matter when considering those who date marry raise families or navigate their identities across these boundaries What we find collectively through the ten studies in this book is that in every context there is a hierarchy of

mixedness both in terms of intimacy and identity. This hierarchy of intimacy renders certain groups as more or less marriable socially constructed around race ethnicity caste religion skin color and or region. Relatedly there is also a hierarchy of identities where certain races languages ethnicities and religions are privileged and valued differently. These differences emerge out of particular local histories and contemporary contexts yet there are also global realities that transcend place and space. **The Boundaries of Mixedness** is a significant new contribution to mixed race studies for academics researchers and advanced students of Ethnic and Racial Studies Sociology History and Public Policy. This book was originally published as a special issue of the *Journal of Intercultural Studies*
