Mobile Capital and Latin American Development James E. Mahon, 2010-11-01 Particularly timely in light of the recent Mexican peso crisis *Mobile Capital and Latin American Development* examines the causes consequences and implications of the Latin American capital flight of the 1980s It addresses the increasingly mobile and privatized nature of international capital and its power to shape economic policy in those countries Through a comparison of the policy experiences of Argentina Brazil Chile Colombia Mexico and Venezuela James E Mahon finds that those countries that suffered the most capital flight had previously faced fewer structural trade problems and had not reoriented their exchange policies to diversify exports and deal with exchange market instability Since the countries that stumbled worst into capital flight before the debt crisis were later among the most aggressive neoliberal reformers Mahon discusses the ways in which overseas capital served as a kind of pressure for free market reform Finally the idea that internationally mobile capital now can operate as a kind of senate an arm of the wealthy few guarding the established order against the arbitrary dangerous tendencies of the executive and popular chamber is examined with relation to theories of dependency and the institutionalization of democracy

Critical Junctures in Mobile Capital Jocelyn Pixley, Helena Flam, 2018-03-08 During the recent financial crisis the conflict between sovereign states and banks over who controls the creation of money was thrown into sharp relief This collection investigates the relationship between states and banks arguing that conflicts between the two over control of money produces critical junctures Drawing on Max Weber's concept of mobile capital the book examines the mobility of capital networks in contexts of funding warfare global bubbles and dangerous instability disengaged from social economic activity It proposes that mobile capital is a primary feature of capitalism and nation states and furthermore argues that the perennial hierarchical struggles between states and global banks is intrinsic to capitalism Featuring authors writing from an impressively diverse range of academic backgrounds including sociology geography economics and politics *Critical Junctures in Mobile Capital* presents a variety of analyses using current or past examples from different countries federations and of differing forms of mobile capital *Promotion* Arthur Stone Dewing, 1921 **The Australasian Insurance & Banking**
