Mobilizing For Modern War

**Cornélis De Witt Willcox, Edwin Roy
Stuart**

Mobilizing For Modern War:

Mobilizing for Modern War Paul A. C. Koistinen, 1997 Although the military industrial complex became familiar to most Americans during the Cold War Paul Koistinen shows that its origins actually go back to the dawn of this century Mobilizing for Modern War the second of an extraordinary five volume study on the political economy of American warfare highlights the emergence of this pivotal relationship In this volume Koistinen examines war planning and mobilizing in an era of rapid industrialization and reveals how economic mobilization for defense and war is shaped at the national level by the interaction of political economic and military institutions and by increasingly powerful and expensive weaponry Covering the Gilded Age and Progressive Era through the Spanish American War and World War I Mobilizing for Modern War shows how a partnership evolved between government and business to prepare for and conduct modern warfare

Mobilizing for Modern War Paul A. C. Koistinen, 1997 In this volume Koistinen examines war planning and mobilizing in an era of rapid industrialization and reveals how economic mobilization for defense and war is shaped at the national level by the interaction of political economic and military institutions and by increasingly powerful and expensive weaponry

Political Economy of American Warfare: Mobilizing for modern war, 1865-1919 Paul A. C. Koistinen, 1996 *Needs and Opportunities in the Modern History of the U.S. Navy* Michael J. Crawford, 2018 This is a compilation of a series of papers presented in conjunction with a year long lecture series sponsored by the Naval History and Heritage Command Provided by publisher

Planning War, Pursuing Peace Paul A. C. Koistinen, 1998-06-19 In the years following World War I America's armed services industry and government took lessons from that conflict to enhance the country's ability to mobilize for war Paul Koistinen examines how today's military industrial state emerged during that period a time when the army and navy embraced their increasing reliance on industry and business accelerated its efforts to prepare the country for future wars Planning War Pursuing Peace is the third of an extraordinary five volume study on the political economy of American warfare It differs from preceding volumes by examining the planning and investigation of war mobilization rather than the actual harnessing of the economy for hostilities and it is also the first book to treat all phases of the political economy of wartime during those crucial interwar years Koistinen first describes and analyzes the War and Navy Departments procurement and economic mobilization planning never before examined in its entirety and conveys the enormity of the task faced by the military in establishing ties with many sectors of the economy He tells how the War Department created commodity committees to carry on the work of World War I's War Industries Board and how both military and industrial powers strove to protect their mutual interests against those seeking to avoid war and to reform society Koistinen then describes the American public's struggle to come to terms with modern warfare through the in depth explorations of the work of the House Select Committee on Expenditures in the War Department the War Policies Commission and the Senate Special Committee Investigating the Munitions Industry He tells how these investigations alarmed pacifists isolationists and neo Jeffersonians

and how they led Senator Gerald Nye and others to warn against the creation of unhealthy alliances between the armed services and industry Planning War Pursuing Peace clearly shows how the U S economy was both directly and indirectly planned based on knowledge gained from World War I By revealing vital and previously unexplored links between America s World Wars it further illuminates the political economy of twentieth century warfare as a complex and continually evolving process

Financing Armed Conflict, Volume 2 Thomas M. Meagher,2017-02-08 This second part of a two volume series examines in detail the financing of America s major wars from the Spanish American War to the Vietnam War It interweaves analyses of political policy military strategy and operations and war finance and economic mobilization with examinations of the events of America s major armed conflicts offering useful case studies for students of military history and spending policy policymakers military comptrollers and officers in training

Emergency Management of the National Economy: The nature of economic mobilization Industrial College of the Armed Forces (U.S.),1954

Mobilizing America's Resources for the War American Academy of Political and Social Science,1918

Planning War, Pursuing Peace Paul A. C. Koistinen,1998 The third volume in a magisterial five volume study of the political economy of American warfare

The Annals of the American Academy of Political and Social Science American Academy of Political and Social Science,1921

Organization and Mobilization in Modern American Peace Campaigns Robert Alan Kleidman,1990

Annals of the American Academy of Political and Social Science ,1921

Armed Forces Talk , Modern War Richard English,2013-07-25 Warfare is the most dangerous threat faced by modern humanity It is also one of the key influences that has shaped the politics economics and society of the modern period But what do we mean by modern war What causes modern wars to begin Why do people fight in them why do they end and what have they achieved In this accessible and compelling Very Short Introduction Richard English explores the assumptions we make about modern warfare and considers them against the backdrop of their historical reality Drawing on the wide literature available including direct accounts of the experience of war English provides an authoritative account of modern war its origins evolution dynamics and current trends

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

World Politics in Modern Civilization Harry Elmer Barnes,1930 A noteworthy stimulating appraisement of the leading trends in world politics and international relations The larger part of the book is devoted to an analysis of the causes and results of the world war with a discussion of post war efforts towards the establishment of world justice and international peace The treatment of personalities and of events is unconventional and straightforward
