Woman-power Harriet Stanton Blatch,1918 *Mobilizing Women-Power* Harriot Stanton Blatch,1974-06 **Mobilizing Woman-Power** Harriot Stanton Blatch,2014-12-08 eagerness but fitness to substitute for man power I commend especially the chapter containing the sentence This war may prove to us the wisdom and economy of devoting public funds to mothers rather than to cr ches and juvenile asylums and also the chapter in which the author tells women that if they are merely looking for a soft place in life their collective demand for a fair field and no favor will be wholly ineffective The doors for service now stand open and it rests with the women themselves to say whether they will enter in The last chapter is itself an unconscious justification of woman s right to a share in the great governmental decisions which to day are vital

Mobilizing Woman-Power Harriot Stanton Blatch,2018-08-15 *Mobilizing Woman Power* by Harriot Stanton Blatch The nations in which women have influenced national aims face the nation that glorifies brute force America opposes the exaltation of the glittering sword opposes the determination of one nation to dominate the world opposes the claim that the head of one ruling family is the direct and only representative of the Creator and above all America opposes the idea that might makes right Let us admit the full weight of the paradox that a people in the name of peace turns to force of arms The tragedy for us lay in there being no choice of ways since pacific groups had failed to create machinery to adjust vital international differences and since the Allies each in turn we the last had been struck by a foe determined to settle disagreements by force Never did a nation make a crusade more just than this of ours We were patient too long patient perhaps with challenges We seek no conquest We fight to protect the freedom of our citizens On America s

standard is written democracy on that of Germany autocracy Without reservation women can give their all to attain our end There may be a cleavage between the German people and the ruling class It may be that our foe is merely the military caste though I am inclined to believe that we have the entire German nation on our hands The supremacy of might may be a doctrine merely instilled in the minds of the people by its rulers Perhaps the weed is not indigenous but it flourishes nevertheless Rabbits did not belong in Australia nor pondweed in England but there they are and dominating the situation Arrogance of the strong towards the weak of the better placed towards the less well placed is part of the government teaching in Germany The peasant woman harries the dog that strains at the market cart her husband harries her as she helps the cow drag the plough the petty officer harries the peasant when he is a raw recruit and the young lieutenant harries the petty officer and so it goes up to the highest a well planned system on the part of the superior to bring the inferior to a high point of material efficiency The propelling spirit is devotion to the Fatherland each believes himself a cog in the machine chosen of God to achieve His purposes on earth The world hears of the Kaiser s Ich und Gott of his mailed fist beating down his enemies but those who have lived in Germany know that exactly the same spirit reigns in every class The strong in chastizing his inferior has the conviction that since might makes right he is the direct representative of Deity on the particular occasion We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience

Shapers of the Great Debate on Women's Rights Joyce D. Duncan,2008-10-30 The three waves of feminism are explored through the lives of the women who made history in bringing women s issues to the forefront of American society Many early feminists supported not only women s rights but also rights of slaves and contributed to the passing of the Thirteenth Amendment granting emancipation to slaves They continued to work towards women s suffrage and were hopeful the Fourteenth Amendment would provide universal suffrage However women were not granted suffrage until the passing of the Nineteenth Amendment nearly fifty years later It was women s fundamental need for independence and an identity of their own separate from that of men which thrust the women s movement forward and continues to propel it today Many notable women such as Susan B Anthony Elizabeth Cady Stanton Billie Jean King Betty Friedan Helen Gurley Brown Jane Fonda and Sandra Day O Connor are included in this history of the women s movement in America The biographical entries cite works for further reading and the volume closes with a bibliography The Shapers of the Great Debate series takes a biographical approach to history following the premise that people make history in the circumstances in which they find themselves Each volume in this series examines the lives and experiences of the individuals involved in a particular debate through both major and minor biographies *The Dial* Francis Fisher Browne,Waldo Ralph Browne,Scofield Thayer,1918 **The Publishers Weekly** ,1918
