Missing Sisters:

Missing Sisters Gregory Maguire, 2009-06-30 Alice's life is about to change. She's a skinny orphan. She's never been able to hear too well. And she can't speak too well either. The only person who seems to care for her is one of the nuns at the orphanage. She gets taken away from Alice in a freak accident. And then one day somebody calls Alice by the wrong name. Miami. She says Miami Shaw. Miami Shaw who may be Alice's twin sister. Who lives only a few miles away. Who has what Alice has always dreamed of: a whole wonderful family. But is there a place in that family for Alice? From bestselling author Gregory Maguire comes a funny heartrending story of the strength of sisterhood and the struggle to find a family of one's own. The search to find the missing sister will take them across the globe from New Zealand to Canada, England, France and Ireland, uniting them all in their mission to at last complete their family. In doing so they will slowly unearth a story of love, strength and sacrifice that began almost one hundred years ago as other brave young women risked everything to change the world around them. China at the East-West Intersection Jun Zeng, You Wu, Keyan G. Tomaselli, 2025-09-09 Remapping China at the East-West Intersection composed predominantly from back copies of Critical Arts draws on the rich reservoir of studies that map a diverse range of research on Chinese literature, art, and culture at the intersection of East-West encounters. This compilation offers a comprehensive exploration of Chinese cultural studies through the lens of global dialogism and intercultural exchange. Structured into four thematic sections Overview, Chinese Narratives, Chinese Art and China, and New Media, the book brings together twenty scholarly articles that collectively examine the complexities and nuances of Chinese culture in a global context. The overview section sets the stage by discussing the scope, methodology, and perspectives of cultural studies from an interhemispherical viewpoint. It is followed by the Chinese narratives section, in which scholars critically engage with traditional Chinese narrative forms and their reception in Western contexts. The next section on Chinese art focuses on the intersection of traditional and contemporary Chinese art forms. Finally, the China and New Media section addresses the impact of digital technologies on Chinese culture. Through these diverse perspectives, this book not only contributes to ongoing academic discourses but also deepens the understanding of China's cultural heritage and its evolving role in the global context. This volume represents for an international audience a set of theories, methodologies, and studies that have been both shaped by and have themselves influenced global trends. By integrating interdisciplinary and dialogic approaches, the book offers fresh insights into the dynamic exchange and interactions between Chinese and Western cultures.
