Between Magic and Religion Sulochana Ruth Asirvatham,Corinne Ondine Pache,John Watrous,2001 Between Magic and Religion represents a radical rethinking of traditional distinctions involving the term religion in the ancient Greek world and beyond through late antiquity to the seventeenth century The title indicates the fluidity of such concepts as religion and magic highlighting the wide variety of meanings evoked by these shifting terms from ancient to modern times The contributors put these meanings to the test applying a wide range of methods in exploring the many varieties of available historical archaeological iconographical and literary evidence No reader will ever think of magic and religion the same way after reading through the findings presented in this book Both terms emerge in a new light with broader applications and deeper meanings     Michael Jordan, Magic Johnson Richard J.
