Fourth Edition, Revised and Enlarged** Thomas John GULLICK (and TIMBS (John)),1876 *Painting Explained* Thomas John Gullick,Paul Dennis Sporer,2005-08-01 A common lament among artists is that there are no books available that give specific practical information about the procedures used by those creative geniuses collectively known as the Old Masters The reason for this dearth is that such a work s author would have to possess extraordinarily wide ranging expert knowledge and skills Thomas Gullick s credentials indicate a great capability in taking up this challenge He was a professional artist and scholar living in the mid 19th century and so was in an exemplary position to discuss the intricacies of traditional techniques and to compare modern systems to the styles and methods of previous eras The book s exceptionally insightful combination of art history aesthetic theory and erudite analysis made it highly regarded at the time and it was given as a prize for outstanding achievement at the Royal College of Art in London In this important new edition with a newly compiled comprehensive index Gullick authoritatively covers the aims and objectives the artist should have when interpreting reality with stress laid on accuracy of detail depth and transparency Apropos of these principles he skilfully discusses the surprisingly complex theories of art that existed in ancient times including that of the Egyptians Assyrians Greeks Etruscans and Romans Also the spiritual features of Christian Medieval art are explored as are the distinctive traits of the national schools of Italy Germany the Low Countries and England Of particular value to the working artist are the detailed sections dealing with technical issues of pre modern forms of painting many of which are poorly understood today but that could if used greatly facilitate and expand the range of visual expression The reader will learn about various physical processes such as encaustic mosaic tempera fresco oil and miniature painting There is also a wealth of knowledge pertaining to implements vehicles varnishes grounds colours subjectiles i e supports chemical formulations the arrangement of the work room and studio and much more Despite the sophisticated nature of the material the author does not neglect the human dimension for he cites pertinent facts as well as witty anecdotes from the life stories of many well known and not so well known artists **Understanding Paintings** Alexander Sturgis,Hollis Clayton,2000 A book which discusses the entire history of painting by genre rather than chronology this fresh approach gives readers a new enlightened way to view and understand the language of art through the ages Subject matters discussed include religious art myth and allegories the nude history painting still life portraiture landscape genre and abstraction 550 color illustrations

the painter's art as well as for a sketch of its history and with the aid of an artist temporarily incapacitated by an accident from the practice of his profession he has in this volume very successfully supplied the want That such a book is needed in the opinion of so competent a judge is in itself a very hopeful sign of the growing interest taken by the public in questions affecting the Fine Arts Happily of late years critics and writers have condescended to speak of matters of art in ordinary language and a too obtrusive use of technical terms would now be universally laughed at Even Dr Waagen has been irreverently suspected of sometimes hiding the inanity of his matter under the magniloquence of his phraseology Such solemn sounding words as megilp and impasto naturally awe the uninitiated The table talk of artists and their familiar letters are still too often full of professional slang spiced with scraps of foreign languages picked up at the Caffe de Greci But it is beginning to be understood that pure and simple English is able to convey all that is worth knowing about a statue or a picture and such subjects in proportion as they have lost their mystery have become popular However some technical terms there must be in every science and no one can profitably pursue a discussion as to any of the various branches of the art of the painter without some acquaintance with the words used to express the processes employed To all such persons we can warmly recommend this modest little book *The Saturday Review of Politics Literature Science and Art Volume 7 On Art*

The investigation is a case study of the writings and paintings of Jizi an ink wash artist in Beijing who combines images of icy mountains Tibetan landscapes cosmic vistas and enclosures of personal existence. Jizi's success in expressing the unification of these dimensions is confirmed by developing and applying an interpretation of Jing Hao's classic description of the authentic image which resonates with the vitality of nature. To find words for resonance with visible nature the inquiry extends to such writers as Li Zehou Arthur Danto and Maurice Merleau Ponty. In short an account of authenticity in Chinese ink painting is offered experimentally as a means for assessing whether contemporary Chinese artworks are expressive of Chinese philosophy and culture. The text includes stylistic comparisons with artists such as E C Escher Guo Xi Jia Youfu Liu Guosong Rene Magritte Piet Mondrian and Xu Bing. The result is an appreciation of the healing influence of Chinese ink art in a global culture that is vibrant complex diverse and affirming of the present. In this rigorous far reaching and original analysis of contemporary ink art painting Brubaker and Wang focus our attention on the work of one independent painter Jizi whose work exemplifies an uncanny marriage between ink art and contemporary concerns. In the central chapters Brubaker persuasively argues that in this work Jizi captures principles essential to traditional Chinese aesthetics articulated in terms of wholeness emptiness and visibility that enable the works to express the unification of the self with nature and the universe as a whole. It does this through forms that are innovative and part of artistic practices and discourses that are becoming increasingly global. Mary Wiseman The City University of New York This important publication focuses on the evocative ink wash paintings of an artist who has over the course of decades demonstrated an unwavering commitment to exploring the technical formal philosophical and experiential dimensions of his chosen medium. The essays commentaries and critical reflections collected in this volume present unique perspectives on Jizi's practice significantly.
