International Handbook of Giftedness and Talent K. A. Heller, F. J. Mönks, R. Subotnik, Robert J. Sternberg, 2000-12-18 The first edition of this popular reference work was published in 1993 and received critical acclaim for its achievement in bringing together international perspectives on research and development in giftedness and talent. Scholars welcomed it as the first comprehensive volume in the field and it has proved to be an indispensable resource to researchers. Since the first edition, the scholarly field of giftedness and talent studies has expanded and developed, welcoming contributions from researchers in related disciplines. It is truly international in scope, bringing together leading scholars and teachers from all around the world. This new edition has been fully updated and rewritten and includes 22 completely new chapters. It provides a comprehensive review and critical synthesis of significant theory, a unique cross-national perspective with contributions from over 100 distinguished authors covering 24 nations, significant contributions from scholars working in related fields, an increased focus on empirically supported scholarship, and is arranged for quick and easy reference with comprehensive subject and author indexes.
