25 Essential Skills for the Successful Behavior Analyst Jon Bailey, Mary Burch, 2023-03-27 This second edition of Bailey and Burch's best selling *25 Essential Skills for the Successful Behavior Analyst* is an invaluable guide to the professional skills required in the rapidly growing field of applied behavior analysis. The demands on professional behavior analysts, BCBA's and BCBA-Ds are constantly increasing such that several new skills are required to keep up with new developments. Each chapter has been thoroughly updated and seven new chapters address recognizing the need to understand client advocacy, cultural responsiveness and the movement toward diversity, equity and inclusion in the field. The authors present five basic skills and strategy areas which each behavior analyst needs to acquire: essential professional skills, basic behavioral repertoire, applying behavioral knowledge, vital work habits and advanced skills. This book is organized around those five areas with a total of 25 specific skills presented within those topics.

Designing for Older Adults Walter Boot, Neil Charness, Sara J. Czaja, Wendy A. Rogers, 2020-09-27 *Designing for Older Adults: Case Studies, Methods and Tools*. There are many products, tools and technologies available that could provide support for older adults. However, their success requires that they are designed with older adults in mind by being aware of and adhering to design principles that recognize the needs, abilities and preferences of diverse groups of older adults. Achieving good design is a process facilitated by seeing principles and guidelines in action. Design success requires understanding how to use the methods and tools available to evaluate initial ideas and prototypes. The goal of this book is to provide illustrative case studies of designing for older adults based on real design challenges faced by the researchers of the Center for Research and Education on Aging and Technology Enhancement (CREATE) over the past two decades. These case studies exemplify the use of human factors tools and user-centered design principles to understand the needs of older adults, identify where existing designs failed older users and examine the effectiveness of design changes to better accommodate the abilities and preferences of the large and growing aging population. Features: Reviews important
