**Practical Steps to Digital Research** Deborah B. Stanley, 2018-07-11 This hands on approach to teaching digital research skills breaks down each research skill into simple targeted steps that enable students to research more deeply and to accomplish real world tasks. Today's rapidly diversifying digital world provides easy access to information making it increasingly important that students know how to conduct research online. In this book you'll learn how to transition your instruction of the research process from a print context to a digital one and to expand your own knowledge of how to best assist students at all stages of their research. Using six well defined steps that she developed in her 26 years of experience as a school librarian, Deb Stanley provides practical strategies for each of the six steps of the research process accompanied by easily used and replicated lessons and handouts that are applicable and adaptable to all grade levels K-12. Step by step instruction, links to Common Core state standards and ideas to help students succeed at each stage of the research process makes this title a must have for any school librarian.

*Encouraging Activism in Secondary English* Beth Spinner, 2025-10-16 Encouraging Activism in Secondary English: Reading and Writing for Social Justice outlines a framework to encourage social justice teaching in the secondary English classroom by providing teachers with valuable materials for designing a curriculum that fosters social justice and strategies that can be taught to encourage reading and writing that empower students to take action on social issues that matter to them. Each chapter focuses on a potential anchor text along with possible pairings and offers specific suggestions for ways to teach and create potential activities and assignments that foster social justice. Anchor texts include works such as The Outsiders by S.E. Hinton, Night by Elie Wiesel, Adventures of Huckleberry Finn by Mark Twain, and 1984 by George Orwell. The chapters include information about historical and contemporary social movements such as the Occupy Movement, protests of the Dakota Access Pipeline, and Greta Thunberg's climate crisis movement. Each chapter then offers specific suggestions for helping students to engage in critical inquiry, discussions, and reflection on their own.
