*Permission to Feel* Marc Brackett, Ph.D., 2019-09-03

The mental well-being of children and adults is shockingly poor. Marc Brackett, author of *Permission to Feel*, knows why. And he knows what we can do. We have a crisis on our hands, and its victims are our children. Marc Brackett is a professor in Yale University's Child Study Center and founding director of the Yale Center for Emotional Intelligence. In his 25 years as an emotion scientist, he has developed a remarkably effective plan to improve the lives of children and adults: a blueprint for understanding our emotions and using them wisely so that they help rather than hinder our success and well-being.

The core of his approach is a legacy from his childhood from an astute uncle who gave him permission to feel. He was the first adult who managed to see Marc, listen to him, and recognize the suffering, bullying, and abuse he'd endured. And that was the beginning of Marc's awareness that what he was going through was temporary. He wasn't alone; he wasn't stuck on a timeline, and he wasn't wrong to feel scared, isolated, and angry. Now, best of all, he could do something about it. In the decades since Marc has led large research teams and raised tens of millions of dollars to investigate the roots of emotional well-being. His prescription for healthy children and their parents, teachers, and schools is a system called RULER, a high-impact and fast-effect approach to understanding and mastering emotions that has already transformed the thousands of schools that have adopted it. RULER has been proven to reduce stress and burnout, improve school climate, and enhance academic achievement. This book is the culmination of Marc's development of RULER and his way to share the strategies and skills with readers around the world. It is tested and it works. This book combines rigor, science, passion, and inspiration in equal parts. Too many children and adults are suffering; they are ashamed of their feelings and emotionally unskilled, but they don't have to be. Marc Brackett's life mission is to reverse this course, and this book can show you how.

### **Working with Emotional Intelligence**

Daniel Goleman, 2000-01-04

Do you have what it takes to succeed in your career? The secret of success is not what they taught you in school. What matters most is not IQ, not a business school degree, not even technical know-how or years of expertise. The single most important factor in job performance and advancement is emotional intelligence. Emotional intelligence is actually a set of skills that anyone can acquire, and in this practical guide, Daniel Goleman identifies them, explains their importance, and shows how they can be fostered. For leaders, emotional intelligence is almost 90 percent of what sets stars apart from the mediocre. As Goleman documents, it's the essential ingredient for reaching and staying at the top in any field, even in high-tech careers. And organizations that learn to operate in emotionally intelligent ways are the companies that will remain vital and dynamic in the competitive marketplace of today and the future. Comprehensively researched, crisply written, and packed with fascinating case histories of triumphs, disasters, and dramatic turnarounds, *Working with Emotional*

Intelligence may be the most important business book you'll ever read. Drawing on unparalleled access to business leaders around the world and studies in more than 500 organizations, Goleman documents an astonishing fact in determining star performance in every field: emotional intelligence matters twice as much as IQ or technical expertise. Readers also discover how emotional competence can be learned. Goleman analyzes five key sets of skills and vividly shows how they determine who is hired and who is fired in the top corporations in the world. He also provides guidelines for training in the emotionally intelligent organization in chapters that no one from manager to CEO should miss. *Working with Emotional Intelligence* could prove to be the most important reference for bottom line businesspeople in the first decades of the 21st century.

This book celebrates the 40th anniversary of the STAR Society, the enduring legacy of our esteemed colleagues Charles Spielberger, Henk Van Der Ploeg and Ralf Schwarzer who conceptualised the idea for a society focused on the measure of stress. Exactly 20 years after its inception we initiated the annual STAR Lifetime Career Award to members with a long and distinguished history of scientific contributions in the field of stress, anxiety and coping. Around the same time the STAR Early Career Award was established to honour researchers' achievements in the science of stress research within the first five years post their doctorate. Last but not least STAR society gives a STAR Student Development Award to a student for the best paper on stress, anxiety and coping in theory, practice or research in the previous year. We invited all past award winners to contribute to this book which has yielded an exciting overview of the work of the individual researchers and their current research focus. We thank those who have found the time to contribute to this book.
