

SOCIAL MEDIA LITERACY

WHAT AND WHERE ARE MIDDLE SCHOOLERS LEARNING ABOUT SOCIAL MEDIA?

In a mixed method study, we surveyed **229 school staff members** and **419 parents** from 4 school districts in the Northeast and interviewed 30 parents and 6 school staff members.

Most frequently discussed topics amongst educators:

49% of educators discussed how student technology use **interferes with sleep**

46% of educators discussed students **craving constant access to devices**

43% of educators discussed considering **how online posts affect others**

Most frequently discussed topics amongst parents:

With 92% of parents reporting discussing **stranger danger**, it was the most popular topic from our survey

90% of parents discuss **cyberbullying** and mean online behaviors

85% of parents warned their children of being influenced by **peer-induced risky behaviors** online (vaping, skipping school, alcohol, etc.)

FINDINGS

- Educators focused on the prevention of their students being victimized by their own addictive and self-regulatory behaviors while parents focused more on preventing their teens from unsafe or risk-taking online peer influences.
- The fact that educators and parents **focus on different aspects** of the digital wellbeing of the child could be turned into a strength of a home-school partnership that is not competing but **complementary** with one another.
