Oracle Bones:

The Oracle Bone Inscriptions from Huayuanzhuang East Adam C. Schwartz, 2019-11-18 Since 1899 more than 73 000 pieces of inscribed divination shell and bone have been found inside the moated enclosure of the Anyang core at the former capital of the late Shang state. Nearly all of these divinations were done on behalf of the Shang kings and has led to the apt characterization that oracle bone inscriptions describe their motivations, experiences and priorities. There are however much smaller sets of divination accounts that were done on behalf of members of the Shang elite other than the king. First noticed in the early 1930s, grouped and periodized shortly thereafter, oracle bone inscriptions produced explicitly by or on behalf of royal family groups reveal information about key aspects of daily life in Shang society that are barely even mentioned in Western scholarship. The newly published Huayuanzhuang East Oracle Bone inscriptions are a spectacular addition to the corpus of texts from Anyang: hundreds of intact or largely intact turtle shells and bovine scapulae densely inscribed with records of the divinations in which they were used. They were produced on the behalf of a mature prince of the royal family whose parents both alive and still very much active almost certainly were the twenty-first Shang king Wu Ding r. c. 1200 B.C. and his consort Lady Hao fu Hao. The Huayuanzhuang East corpus is an unusually homogeneous set of more than two thousand five hundred divination records produced over a short period of time on behalf of a prince of the royal family. There are typically multiple records of divinations regarding the same or similar topics that can be synchronized together which not only allows for remarkable access into the esoteric world of divination practice but also produce micro-reconstructions of what is essentially East Asia's earliest and most complete day and month planner. Because these texts are unusually linguistically transparent and well preserved, homogeneous in orthography and content and published to an unprecedentedly high standard, they are also ideal material for learning to read and interpret early epigraphic texts. The Huayuanzhuang East oracle bone inscriptions are a tremendously important Shang archive of material documents that were produced by a previously unknown divination and scribal organization. They expose us to an entirely fresh set of perspectives and preoccupations centering on a member of the royal family at the commencement of China's historical period. The completely annotated English translation of the inscriptions is the first of its kind and is a vibrant new source of Shang history that can be accessed to rewrite and supplement what we know about early Chinese civilization and life in the ancient world. Before the discerning reader are the motives, preoccupations and experiences of a late Shang prince working simultaneously in service both for his Majesty, his parents and his own family.

Sources of Shang History David N. Keightley, 1985 *Oracle Bones Divination* Kostas Dervenis, 2013-12-17 The first complete guide to this ancient Greek form of divination. Explains how to cast and interpret this oracle using either coins or traditional animal bones. Reveals how the use of oracle bones predates the I Ching. Includes the complete matrix of oracle interpretations reconstructed by the author from stanzas in ancient Greek temples. In ancient Greece, methods of foretelling the future were widespread whether they were official oracles of the gods.

or simple dice games to divine one's luck. One of the most popular and accessible ways of determining one's fate and fortune was through the ritual casting of animal bones similar to the casting of coins or yarrow stalks with the Chinese I Ching. Kostas Dervenis explains how to interpret the casting of the oracle bones either traditional sheep anklebones or coins to answer your questions on love, health, wealth, and the future. Using the original stanzas discovered in ancient Greek temples in Greece and Turkey, the author reconstructs the complete matrix of interpretation for each possible casting of the bones. He explores how this practice traces back to the Golden Age of the Neolithic period in Greece, Turkey, and Bulgaria, predating the I Ching, and how it is still practiced today as the popular folk game of knucklebones. Providing the first complete guide to this ancient practice, Dervenis allows anyone to cast the bones for guidance, inspiration, and insight into their fate. *MENZIES COLLECTION OF SHANG DYNASTY ORACLE BONES*, 1970 Oracle Bones Houghton Mifflin Company, 1990-06-01

Discusses the achievements of the ancient Chinese in astronomy, medicine, science, and engineering, as well as such influential Chinese inventions as paper, printing, gun powder, and the compass. *Oracle Bones: Poems from the Time of Misrule* Keith Holyoak, 2019-01-12. Oracle Bones is a new form of political satire: the state of current American politics reimagined as a sequence of poetic warnings to a foolish and dissolute king who ruled back at the dawn of Chinese civilization. Thousands of years ago, a shaman would query the gods by carving a question on a bone and applying heat until cracks formed. The answer was then recorded on the oracle bone. Keith Holyoak, poet, psychologist, and translator of classical Chinese poetry, has created oracle bones for modern America, translated into short English poems. Using symbols dating back to the Shang dynasty, these messages allude to the tyrannical regime of a long forgotten king. The common people are exploited and divided against one another; impoverished migrants are brutalized; greed and nepotism go unchecked. Meanwhile, the king leads a life of joyless debauchery. Warnings of loyal advisors are ignored, even as rebellion begins to stir. Of course, the primitive form of government that can be glimpsed in these oracle bones vanished long ago. Nothing like this could happen in the modern democracy of America. A Little Primer of Chinese Oracle-bone Inscriptions with Some Exercises Ken'ichi Takashima, 2015

A Little Primer of Chinese Oracle-bone Inscriptions with Some Exercises Ken'ichi Takashima, 2015. This Little Primer introduces students of classical Chinese to the earliest extant body of Chinese texts dating from about the 13th to the 10th centuries BC. These texts are known as Oracle Bone Inscriptions and relate to any matter that was deemed sufficiently important to require consultation with the ancestors and deities of the Shang aristocracy. Indispensable to the study of the history of Chinese religion, politics, agriculture, the calendar system, hunting, warfare, medicine, sacrificial and ritual practices, and other matters of life in China's first historical dynasty, these more than 130,000 pieces of inscribed turtle plastrons and bovine scapulas, though mostly fragmented, ones comprise more text in terms of number of characters than the combined transmitted traditional pre-Qin classical Chinese texts. The material will be presented in three forms: normalized transcriptions of the texts into modern standard Chinese script, translations into English, and ink squeezes or rubbings of the

original texts There is also a detailed linguistic and philological explanation of the text plus an annotation and commentary on the cultural and historical background of the material No special background in analyzing grammar and syntax will be required to understand most if not all of the materials presented in this Little Primer 小引 Royal Ontario Museum, Jinxiong Xu, 1979
