**Music Learning as Youth Development** Brian Kaufman, Lawrence Scripp, 2019-05-30 Music Learning as Youth Development explores how music education programs can contribute to young people's social emotional cognitive and artistic capacities in the context of life long musical development International scholars argue that MLYD programs should focus in particular on the curiosity energy and views of young people affecting the teachers musicians pedagogy programs and music with which young people interact From fields of progressive music education authors share their perspectives on approaches that can lead to new ways of enabling youth learners as they transition to adulthood A vast range of possible outcomes arising from in school afterschool and community based music programs are examined in order to highlight the aspects of youth development that music learning is particularly well suited to support Following an introductory essay that provides new perspectives on pursuing lifelong musical development the volume features two primary sections The first focuses on case studies exploring several programs through the lens of the transitional stages of music learning as youth development helping the reader understand key concepts and explore challenges for creating music learning as youth development programs The second section addresses the broad implications and policy issues of programs described including discussing why music learning should be
