grow your family's necessary requirements of fresh fruit and vegetables depending on the space available. During the First World War this was called a Victory garden. This is the place which is not going to be cluttered up with lots of sweet smelling blossoms. It is going to be reserved just for vegetables and herbs which are ready to go right into your cooking pot. Also the lawn area is definitely not going to be utilized in the making of a potager. Leave that particular area to the grass. A kitchen garden also known as a vegetable plot has been used by mankind for centuries in order to grow their own vegetables. That is because man would rather have easy access to his food than go out hunting for it. And that is what made him add fruit and vegetables to his daily diet instead of substance on just animal products like meat, fish and game which needed to be hunted in all weather depending on the need and requirement of the tribe and family. And that is why he began domesticating farm animals. But we a large number of us who are town dwellers or city dwellers have supposedly lost touch with our roots no pun intended and that is why we can not imagine ourselves grubbing in the family farms or plots from dawn to dusk in order to get enough of a harvest to feed our families.
