Digital Landscape Architecture: Logic, Structure, Method

and Application Yuning Cheng,2023-05-13 Closely related to the frontier research field of digital technology this book reshapes the planning and design process of landscape architecture from theoretical and practical levels It gives a full scale discussion to the logic structure method and application of digital landscape architecture leading this field to a new era of perception quantification research mode Readers will get a comprehensive understanding of digital landscape architecture know about multiple digital methods for landscape planning and design and learn a lot of practical projects with digital technology And it will inspire the readers to think about new patterns and approaches to landscape planning rather than traditional ways This book is organized under a clear logic which helps the readers easily get the core of the work A lot of logic diagrams showing between the theoretical paragraphs highly summarize the key points of the book providing a better readability and acceptability This book also contains many detailed drawings and graphics for the project cases which gives a good demonstration of how digital methods could be applied in practice

Environmental Design Evaluation Arnold Friedmann,Craig Zimring,Ervin Zube,2013-12-14 As the nature of the field of environment behavior relations is interdisciplinary the collaboration of three persons of diverse professional backgrounds in writing this book is therefore not surprising This collaboration started in 1972 with the offering of a graduate seminar Environment Behavior and Design Evaluation at the University of Massachusetts Several research projects dealing with design evaluation which have been conducted at the University are also included as case studies in this book Chapter III the ELEMUR study and the Visitor Center study Two of the authors have worked as part of the instructional team in the seminar and all of the authors have participated in varying degrees in the ELEMUR Project The authors backgrounds in design psychology and landscape

architecture suggest by example that professionals with diverse backgrounds but a common interest in environment behavior problems can indeed learn to communicate and to collaborate Since design evaluation is a new field and very little specific literature on the subject exists to date we hope this book fills a current need ***Research Methods for Environmental Psychology*** Robert Gifford,2015-10-20 Covering the full spectrum of methodology the timely and indispensable Research Methods for Environmental surveys the research and application methods for studying changing and improving human attitudes behaviour and well being in relation to the physical environment The first new book covering research methods in environmental psychology in over 25 years Brings the subject completely up to date with coverage of the latest methodology in the field The level of public concern over the impact of the environment on humans is high making this book timely and of real interest to a fast growing discipline Comprehensively surveys the research and application methods for studying changing and improving human attitudes behavior and well being in relation to the physical environment Robert Gifford is internationally recognised as one of the leading individuals in this field and the contributors include many of the major leaders in the discipline

Perspectives on Environment and Behavior Daniel Stokols,2013-11-11 The inception of this volume can be traced to a series of Environmental Psychology Colloquia presented at the University of California Irvine during the spring of 1974 These colloquia were held in conjunction with Social Ecology 252 a graduate seminar on Man and the Environment Although the eight colloquia covered a wide range of topics and exemplified a diversity of research techniques they seemed to converge on some common theoretical and methodological assumptions about the nature of environment behavioral research The apparent continuities among these colloquia suggested the utility of developing a manuscript that would provide a historical overview of research on environment and behavior a representation of its major concerns and an analysis of its conceptual and empirical trends Thus expanded versions of the initial presentations were integrated with a supplemental set of invited manuscripts to yield the present volume of original contributions by leading researchers in the areas of ecological and environmental psychology

Dimensions of Regenerative Practices in Tourism and Hospitality Tyagi, Pankaj Kumar,Nadda, Vipin,Kankaew, Kannapat,Dube, Kaitano,2024-06-24 The tourism industry faces a pressing challenge balancing economic growth with environmental preservation and social responsibility Traditional tourism models often lead to environmental degradation cultural homogenization and economic disparities Local communities are marginalized and natural resources are depleted threatening the industry's long term sustainability Moreover the COVID 19 pandemic has highlighted the industry's vulnerability to external shocks emphasizing the need for resilient and sustainable practices Dimensions of Regenerative Practices in Tourism and Hospitality offers a comprehensive solution to these challenges The book provides practical guidelines for businesses and practitioners to adopt regenerative practices effectively by showcasing innovative and sustainable initiatives It explores the role of local communities in shaping and benefiting from sustainable tourism emphasizing the importance of collaboration among stakeholders Additionally the book evaluates the
