**John Burn Bailey**

## **Methuselahs Gift:**

*Methuselah's Gift* Mary Elizabeth Edgren, 1994-08-01      The Gift of Sublimation Nathan Carlin, Donald Capps, 2015-06-23 There is not and never was a monolithic masculinity there are and always have been multiple masculinities Today diversity with regard to gender and sexuality is beginning to be recognized and celebrated even while many religious denominations still resist these cultural changes This book offers pastoral interpretations of these social shifts in light of psychological principles applying them to topics such as the moral disapproval of masturbation the efforts of some churches to convince homosexual men to adopt a heterosexual orientation the dynamics of male envy of female longevity the homosexual tendencies of King James of England and Scotland and biblical portraits of God's body gender and sexuality The authors make a special use of the psychoanalytic concept of sublimation that is the redirection of sexual desires that are considered unacceptable or unworthy toward interests and aspirations that are considered acceptable and worthy While the use of psychoanalytic hermeneutics here is likely to raise various red flags for potential religious readers especially for those who have been informed that Sigmund Freud was hostile toward religion this book presents a rather different Freud by focusing on religious sublimation

**Modern Methuselahs: Or, Short Biographical Sketches of a Few Advanced Nonagenarians Or Actual Centenarians who Were Distinguished in Art, Science, Literature, Or Philanthropy** John Burn Bailey, 1888      **Discourses and Narrations in the Biosciences** Brian Hurwitz, Paola Spinozzi, 2011 Discourses and Narrations in the Biosciences investigates the forms of writing in which scientific claims are formulated and announced Argumentative strategies compositional rules and figurative expressions in communication and narrativization of scientific knowledge are the focus of interdisciplinary contributions by humanities and science scholars The first part of the book dedicated to Rhetorical and Epistemological Aspects of Science Writing addresses how scientific pursuits and methods feed into multi level texts that generate responses within science society and culture The second part entitled Bioscientific Discourses and Narrations examines popularisations and fictionalizations of science in relation to diversity deviancy ageing illness reproduction the evolution of humankind mathematical models of biomedical systems and the myth of the heroic scientist Assessing the narrative impetus and command of literary and meta discursive strategies shown by contemporary science writers enhances understanding of the methods and conventions through which the biosciences produce knowledge

*The Bible Doctrine of Man* C. Ryder Smith, 2009-05-26 Upon the answers which thinkers give to the question What is Man depend on the answers they give to every other question hence the importance of this matter in the world's life and future Much that is current in theological discussion centers in the same inquiry It is evident that the Christian must know what the Bible says and Dr Ryder Smith is supremely qualified to expound the Bible teaching The author finds that the Doctrine of Man is implied rather than stated in Holy Writ he has made it his task to draw out the doctrine largely by examining the meaning of the Hebrew and Greek terms He has included a treatment of the Septuagint because the New Testament usually

starts with the Septuagintal use There is special treatment of the important phrase The Image of God so frequently encountered in current theological discussion this is the more advantageous because Dr Ryder Smith maintains the usage has changed since the days of the Bible writers There are chapters on What ought a man to be as well as on What is a man and to the writer the former question is the more important This book which seeks to put in its right perspective the whole question of the Biblical doctrine of Man will take its place as the classical and fundamental treatment of this doctrine

Dun's Review ,1952      **Antichrist and the Church** Charles Akujieze,2013-02-26 The history of Christendom has caused some to cast serious doubt about Christianity By Christendom scholars generally refer to the realm of sectarian activity dominated by religions that claim to be Christian Christianity refers to the original form of worship and access to God taught by Jesus Christ With her wars inquisitions crusades and religious hypocrisy the history of Christendom has not helped the cause of Christianity Devout Muslims and others point to the moral corruption and decadence of the Western Christian world as a basis of rejecting Christianity Having lost their moral rudder most if not all Christian nations have suffered shipwreck on the rocks of faithlessness greed and self indulgence At the inception of Christianity two ways were available to those espousing what was then an unpopular faith hold to the uncompromising teachings and principles of Christ and the Scriptures or oscillate towards the wide and easy going path of compromise with the world at the time Its history of first 400 years shows that the majority choose the later And this suggests that the decadence started many years ago but only reached unprecedented level in our contemporary times      **Conrad's Angel** Stuart Slade,2018-10-05 Conrad de Llorente Inquisitor A Soul Eternally Damned After centuries tormented by guilt Conrad s work saving the innocent finally won him a measure of peace and at least some of the Redemption he craves Now respected by his peers he lives in Bangkok and carries on his work protecting those unjustly condemned and who have nowhere else to turn It is here that he faces his greatest ever challenge a young woman who survived a horrifying attack as a child and has now become a career criminal Conrad faces a new and unprecedented challenge Knowing that Angel was betrayed by her family and believing his Church was responsible for the path her life has taken he feels obliged to try and save her soul Yet how does he go about saving somebody who does not want to be saved and redeeming a soul that spurns redemption Driven by the principle of hating the sin but loving the sinner Conrad accepts this new challenge and is determined to save Angel s soul if necessary at cost of his own      *Time* ,1957

*T.P.'s and Cassell's Weekly* ,1927      **The Rotarian** ,1937-10 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine      **Sales Management** ,1952      *Centenarians* Calogero Caruso,2019-08-05 This state of the art review on longevity focuses on centenarians studied as a model of positive biology The extraordinary rise in the elderly population in developed countries underscores the importance of studies on ageing and longevity in order to decrease

the medical economic and social problems associated with the increased number of non autonomous individuals affected by invalidating pathologies Centenarians have reached the extreme limits of human life span Those in relatively good health who are able to perform their routine daily tasks are the best examples of extreme longevity representing selected individuals in which the appearance of major age related diseases including cancer and cardiovascular diseases has been consistently delayed or avoided The relationship between causality and chance is an open discussion topic in many disciplines In particular ageing the related diseases and longevity are difficult to define as a consequence of causality chance or both Discussing the relevance of these different factors in the attainment of longevity the book gathers contributions on genetic epigenetic and phenotypic aspects of centenarians The positive biology approach is applied to clarify the causes of positive phenotypes as well as to explain the biological mechanisms of health and well being with the aim of preventing and or reducing frailty and disability in the elderly
