In *Becoming Facebook*, computer engineer turned marketing innovator Mike Hoefflinger shares the challenges faced and lessons learned during the coming of age times of the company. Discover from an insider how Facebook recovered from its disastrous IPO, how the growth team achieved the impossible, why Facebook's newsfeed ads were the company's most important business decision ever, how Google attacked and lost, why and how Instagram and WhatsApp were added. Follow the social media giant from its almost mythical birth all the way to the overwhelming success it has been solidified in today, uncovering the lessons its leaders learned while overcoming setbacks and achieving greatness.

Written for managers who want to create and use scorecards, *Metrics 2.0: Creating Scorecards for High Performance Work Teams and Organizations* provides a unique perspective on this vital management tool. Focusing on performance improvement, it describes the intellectual foundation behind scorecards and demonstrates how metrics can be used to enhance feedback, motivation, and employee engagement. The book offers a background primer on statistics and research methods, outlining the basics of metrics such as attributes, scope of measures, and levels of analysis to help managers understand what should go into the scorecard and why. Key techniques for using scorecards are showcased, and step-by-step guidance on creating metric scorecards for teams, departments, and entire organizations is provided, including specialized situations such as customer service measurement or monitoring off-site performance. Finally, managers are taught how to analyze results intelligently and translate metrics into effective operational practices. Extensive running examples address both service and manufacturing metrics, and each chapter ends with a set of learning objectives.
