Bagley, Hanna Samir Kassab, Jonathan D. Rosen, 2015-02-19 Reconceptualizing Security in the Americas in the Twenty First Century illustrates the various security concerns in the Americas in the twenty first century It presents the work of a number of prolific scholars and analysts in the region The book offers new theoretical and analytical perspectives Within the Americas we find a number of important issues security issues Most important are the threats that supersede borders drug trafficking migration health and environmental These threats change our understanding of security and the state and regional process of neutralizing or correcting these threats This volume evaluates these threats within contemporary security discourse U.S. Security Assistance to Mexico United States. Congress. House. Committee on Foreign Affairs. Subcommittee on the Western Hemisphere (2007-), 2007 U.S.-Mexico Security Cooperation United States. Congress. House. Committee on Foreign Affairs. Subcommittee on the Western Hemisphere, 2013 Mexico's Military on the Democratic Stage Roderic A. Camp, 2005-09-30 Based on information not available previously this comprehensive study details the history evolution and changing relationship between the armed forces and civilian leadership in Mexico in the second half of the 20th century Camp focuses on the past two decades during which democratic transformation produced important changes within the armed forces in particular the navy Despite institutional autonomy a lack of reform and an increase in civilian missions the Mexican armed forces remain subordinate to civilian political authorities and Camp finds little evidence to support the common notion that they are a significant threat to civilian supremacy in general or to the democratic process in particular This work draws from published and unpublished sources military websites and material obtained through numerous freedom of information requests made directly through the secretariat of national defense It includes correspondence and interviews with Mexican officers specialists and journalists who have covered the military and American officers who have trained or worked with the Mexican armed forces Based upon thirty five years of research Camp incorporates detailed data on 670 army air force and naval officers at the two or three star rank into the only comprehensive biographical data bank ever compiled on the Mexican military This allows for insightful comparisons between the navy and army on such topics as leadership training international education and promotion It

reveals new organizational developments within the armed forces especially the navy and the new roles civil political institutions are playing vis a vis the armed forces *Should Mexico Hold Veto Power Over U.S. Border Security Decisions?* United States.
