## Mibing Heaven:

**Moving Heaven and Earth (Icon Science)** John Henry, 2017-12-07 When Nicolaus Copernicus claimed that the Earth was not stationary at the centre of the universe but circled the Sun he brought about a total revolution in the sciences and consternation in the Church Copernicus theory demanded a new physics to explain motion and force a new theory of space and a completely new conception of the nature of our universe He also showed for the first time that a common sense view of things isn't necessarily correct and that mathematics can and does reveal the true nature of the material world As John Henry reveals from his idea of a swiftly moving Earth Copernicus sowed the seed from which science has grown to be a dominant aspect of modern culture fundamental in shaping our understanding of the workings of the cosmos **Moving Heaven and Earth** Donald F.
