BRICS Patrick Bond, Ana Garcia, 2015-08-20 The rise of the BRICS a bloc of emerging economies comprised of Brazil Russia India China and South Africa is one of the defining features of the modern global economy This book explores these nations which seem to be growing at a much faster rate than the developed nations of the Eurozone and North America Will they drag the developed world out of the economic mire Will they force social change and innovation into the tired old world order And politically do they herald a new dawn for democracy or do they represent a continued political repression This edited collection answers these questions by offering critical analysis of the rise of the BRICS economies within the framework of a predatory exclusionary and unequal global capitalism From Chinese oil geopolitics to the ruinous mega events in Brazil the authors provide a new radical way of understanding these controversial developments *El nuevo desafio imperial* Leo Panitch, Colin Leys, 2003 *Militarized Lives in the Global South, Volume I* Monica Herz, Thiago Rodrigues, 2025-02-14 In this book we propose to tackle militarization trends in Latin America which include the presence of the military organizations in some vital national economic activities the ethics and aesthetics of the military in popular forms of entertainment the active engagement of military personnel in criminal activities the Armed Forces intervention in electoral processes the Armed Forces engagement in the cybersphere and cyberwarfare their participation in civil defense operations their emulation by militias gangs and other armed non state actors We shall consider militarization on multiple scales from the individual body and subjectification processes to international politics from the everyday experiences and practices to the development of national strategies in Latin America and we shall avoid the dichotomy between a militarized moment and space and a demilitarized moment and space *State Transformations: Classes, Strategy, Socialism*, 2021-07-05 It is often remarked that critical and especially Marxist state theory began to lose its central place in the study of comparative politics in the 1980s Ironically this shift occurred just as neoliberal policies were transforming the social form and spatial scales of the state radically restructuring the practices of state economic intervention and extending the capabilities of the coercive arms of the state This volume addresses the impoverishment of state theory over the last decades and insists on the continued salience of class analysis to the study of states The book's title *State Transformations* reflects several central themes in the comparative study of states the neoliberal restructuring of capitalist states the changing economic and political architecture of imperialism and the prospects of a democratic transformation of capitalist states The essays collected here on these themes are in honor and memory of Leo Panitch whose influential body of work has shaped debates on the state imperialism and socialism over the past four decades Contributors are Clyde W Barrow Caio Bugiato Frank Deppe Ruth Felder Ana Garcia Sam Gindin Doug Henwood Martijn Konings Colin Leys Sebnem Oguz Bryan D Palmer Dennis Pilon Larry Savage Charles Smith Michalis Spourdakis and Hilary Wainwright *Global Neoliberalism and Education and Its Consequences* Dave Hill, Ravi Kumar, 2012-04-06 Written by an impressive international array of education policy analysts

educational activists and scholars Global Neoliberalism and Education and its Consequences lays bare the motivations organizations institutions and ideologies underlying the global national and local neoliberalisation of schooling and education
