Numerous Number Crunchers share their quantitative aptitude into rewarding careers **Narrative and Numbers** Aswath Damodaran, 2017-01-10 How can a company that has never turned a profit have a multibillion dollar valuation? Why do some start ups attract large investments while others do not? Aswath Damodaran finance professor and experienced investor argues that the power of story drives corporate value adding substance to numbers and persuading even cautious investors to take risks. In business there are the storytellers who spin compelling narratives and the number crunchers who construct meaningful models and accounts. Both are essential to success but only by combining the two Damodaran argues can a business deliver and sustain value. Through a range of case studies **Narrative and Numbers** describes how storytellers can better incorporate and narrate numbers and how number crunchers can calculate more imaginative models that withstand scrutiny. Damodaran considers Uber's debut and how narrative is key to understanding different valuations. He investigates why Twitter and Facebook were valued in the billions of dollars at their public offerings and why one Twitter has stagnated while the other Facebook has grown. Damodaran also looks at more established business models such as Apple and Amazon to demonstrate how a company's

history can both enrich and constrain its narrative And through Vale a global Brazil based mining company he shows the influence of external narrative and how country commodity and currency can shape a company s story Narrative and Numbers reveals the benefits challenges and pitfalls of weaving narratives around numbers and how one can best test a story s plausibility [Learning ICT with Maths](#) Richard Bennett,2013-05-24 Providing practical guidance on enhancing learning through ICT in maths this book is made up of a series of projects that supplement augment and extend the QCA ICT scheme and provide much needed links with Units in other subjects schemes of work It includes fact cards that support each project and clearly outline its benefits in relation to teaching and learning examples of how activities work in real classrooms links to research inspection evidence and background reading to support each project adaptable planning examples and practical ideas provided on accompanying downloadable resources Suitable for all trainee and practising primary teachers
