

# 21st CENTURY EDITION NUMEROLOGY MADE EASY

Pythagoras founded the Pythagorean School of Cosmology in 580 BC, and his system of numerology is still practiced today. Numerology holds that every number has a personality, like ourselves. It is a subtle science that empowers people to control themselves. In this way, self-analysis, nature and aspects are assigned to numbers, and these numbers are correlated with specific features of the individual. Numbers such as birth dates are reduced to single digits, allowing profound insight of who we are and personality traits. What remains is the key to life. In 1980, the Numerology has been practiced in more countries across the globe and became the foundation of contemporary Numerology. Pythagoras' system has been used to bring into the modernity of numbers.
