Nursing Health Assessment:

Health Assessment in Nursing Janet R. Weber, Jane H. Kelley, 2013-11-14 Innovative systematic and user friendly Health Assessment in Nursing has been acclaimed through four previous editions for the way it successfully helps RN level students develop the comprehensive knowledge base and expert nursing assessment skills necessary for accurate collection of client data. Maintaining the text's hallmarks in depth accurate information, a compelling Continuing Case Study and practical tools that help students develop the skills they need to collect both subjective and objective data, the Fifth Edition now features an exciting array of new chapters, a greater focus on diversity and health assessment through the lifespan, over 150 new illustrations, more than 300 new photos of actual registered nurses and nurse practitioners performing assessments and an expanded array of teaching and learning tools.

Health Assessment in Nursing Janet Weber, Jane Kelley, 2009-10-01 Now in its Fourth Edition, *Health Assessment in Nursing* is a colorful, user friendly introductory level health assessment text for RN level students. Targeted to ADN and BSN programs, this text presumes no prior knowledge of health assessment and is part of a suite that includes *Lab Manual to Accompany Health Assessment in Nursing*, *Nurses Handbook of Health Assessment* and *Weber Kelley's Interactive Nursing Assessment*. For this edition, the COLDSPA mnemonic which guides students through investigation of symptoms has been revised to show specific applications to content in each chapter. A sample application of COLDSPA is presented at the beginning of each chapter's Nursing History section and another accompanies each case study. The Frail Elderly chapter has been streamlined with a stronger focus on the normal variations associated with assessment of elderly clients. Includes DVD ROM.
