## **Nutrition From Science To Life:**

Nutrition Mary B. Grosvenor, 2001-08-08 Nutrition From Science to Life brings the science of nutrition off the pages of a book and into the lives of the reader All introductory nutrition courses offer students basic information about nutrients their functions in the body and sources in the diet This science based text strengthens this foundation by providing the readers with the how and the why behind the nutrition issues This understanding allows students to carry their knowledge out of the classroom and into their everyday lives both as consumers and as future scientists and health professionals This book is intended as an introductory text for a science oriented nutrition course A college student at any level freshman to senior will be comfortable with the material Although there are no prerequisites for a course at this level the clinical flavor strong biochemistry metabolism coverage and in depth approach to science and nutritional research make this a text that will prepare nutrition majors and other science majors for their future studies and careers It is appropriate for either a one or a two semester course

*Nutrition* Mary B. Grosvenor, Lori A. Smolin, 2002 NUTRITION FROM SCIENCE TO LIFE helps students apply the science of nutrition to their personal and professional lives Like many introductory nutrition texts this book offers fundamental information regarding nutrients their functions in the body and their sources in diet The author enhances this foundation by providing the scientific story behind nutrition issues As a result students acquire not only a command of the essentials but also the ability to think critically about the nutrition issues that they will encounter as consumers and as professionals
