dentistry it often doesn't make it to many clinical resources or books to help guide the dentist on their journey. More than ever, there is an increased focus on healthcare management within the dental syllabus and a greater emphasis at more junior levels. Oxford Professional Practice Handbook of Management for Hospital Dentistry covers the managerial component of the dental curricula in a concise manner whilst pertaining to the wider NHS setting. This practical pocket-sized handbook ranges from the overarching NHS policies down to the daily management of staff, conflict risks and trainees within the dental team. Also catering to the Intercollegiate Specialty Fellowship Examination (ISFE), it is an ideal companion for trainees on the dental postgraduate pathway right the way through to consultants in their early leadership years.

Sports Medicine: It's Environmental Mark R. Hutchinson, Sérgio Rocha Piedade, 2025-05-23 This book serves as an essential quick reference for team physicians focusing on the risks associated with athletic participation in various environments. The book follows a consistent structure to facilitate easy cross-referencing including clinical pearls for identifying environment-related injuries or diseases, recommended initial treatment responses and guidelines for extraction from pathological environments. The reader will find each chapter featuring learning objectives and key reading references. This practical manual offers the reader an essential tool to navigate the complexities of environmental medicine in sports, ensuring the health and safety of athletes in any setting.

MEDINFO 2019: Health and Wellbeing e-Networks for All Lucila Ohno-Machado, 2019-11-15 Combining and integrating cross-institutional data remains a challenge for both researchers and those involved in patient care. Patient-generated data can contribute precious information to healthcare professionals by enabling monitoring under normal life conditions and also helping patients play a more active role in their own care. This book presents the proceedings of MEDINFO 2019, the 17th World Congress on Medical and Health Informatics held in Lyon, France, from 25 to 30 August 2019. The theme of this year's conference was Health and Wellbeing E-Networks for All, stressing the increasing importance of networks in healthcare on the one hand and the patient-centered perspective on the other. Over 1100 manuscripts were submitted to the conference and after a thorough review process by at least three reviewers and assessment by a scientific program committee member, 285 papers and 296 posters were accepted together with 47 podium abstracts, 7 demonstrations, 45 panels, 21 workshops and 9 tutorials. All accepted paper and poster contributions are included in these proceedings. The papers are grouped under four thematic tracks: interpreting health and biomedical data, supporting care delivery, enabling precision medicine and public health, and the human element in medical informatics. The posters are divided into the same four groups. The book presents an overview of state-of-the-art informatics projects from multiple regions of the world; it will be of interest to anyone working in the field of medical informatics.
